

ECO PLANK

1/4" - 4" Rigid Foam, 2-30 lb Density Earth-Friendly Plywood Replacement

683 million cubic feet of plywood/veneer produced annually. 64.9 million metric tons of synthetic carpet fibers produced annually. A portion of Eco Plank profits are contributed to One Tree Planted to promote global reforestation.

- **Higher insulator values**
- **Increased sound deadening properties**
- **Lighter weight**
- **Warp free, rot resistant, moisture proof**
- **Made from recycled carpet fibers and rapidly renewable resources**
- **Class A Fire Rating**

**Eco Plank, the planet's
perfect plywood replacement**
