## Parkside Village 55+ Where the Living is Easy!

Parkside Village 55+ is a "Retirement Community." If a few individuals have not yet left a job and ceased to work, then that will occur very soon. The people living in this community are full of energy and enthusiasm; they are active and want to remain independent in old age.

After 13 months, that is my observation of the community here at Parkside Village 55+. I see this in the activities organized by residents. I hear about it from resident descriptions of their activities. It is an attitude I see on a weekly basis.

Maybe it was Co-Vid, some have said it did affect our community, or maybe something else, but some residents have expressed a concern that we are not as vibrant as we used to be. Well, we can do something about that.

We can remain active in activities here at Parkside Village and be active in activities out in the community. We can bring in new ideas for activities. We can bring in more residents to help organize and put on activities. We can have our neighbors join us in activities, both old and new.

It is not the physical units that get bought and sold here at Parkside Village; new residents are buying into our community. When potential residents tell me they already want to live here they do not talk about our physical buildings. They talk about the energy and enthusiasm of our residents. They talk about what our residents are doing!

With that in mind I am encouraging each of you to fully participate in what we have here at Parkside Village. Bring your new ideas and new activities to your community.

*Bill Simon*, General Manager

**Be Active...Where the Living is Easy!**

# Social Committee

## A Shout-Out from the Social Committee to ALL Volunteers On the Italian Night Dinner...

**“An outstanding job, well done!”**

From all the reviews this event was a raving success. And, what made it successful was all the many people that contributed their time and effort to make this event happen.

---

With that “Shout-Out” the Social Committee invites you to become involved. The Social Committee membership is turning over and of the six current members four are “retiring” and need to be replaced. Being on the Committee is one of the many ways you can contribute to keeping our community vibrant.

With all the residents that so willing donate their time, talents and skills to making our events fun and enjoyable the only “work” of the Social Committee is keeping activities organized. If you have new ideas or want new activities or really want to keep particular events happening, this is where you can make that happen!

Garden Building Resident? Ranch Resident? Male? Female?  
Been here less than a year? Been here 21+ years? Any years in between? Yes, you can! Anyone 55+!
