

Investment Philosophy

Titan utilizes a tactical investment approach that adapts to the current market environment with the goal of delivering above market, risk-adjusted returns with lower drawdowns than market indices like the S&P 500. Our strategies seek to participate in up markets while protecting capital during down markets. We rely on our proprietary quantitative models to remove human emotions from the investment process and objectively navigate the global markets. Our models have built-in exit strategies to contain drawdowns. We also use Protective Stop Alerts held on our software to minimize losses.

Strategy Objective

The Titan Moderate Growth strategy seeks to generate higher returns with lower drawdowns than the 60/40 blended index (60% MSCI ACWI/40% U.S. Aggregate Bond) during bull & bear markets. The strategy utilizes ETFs to allocate to equities and other asset classes. There are no fixed allocations to any asset class. The strategy can allocate up to 75% to equities during up markets and 100% to bonds, T-Bills and other asset classes during down markets.

DISCLOSURES

Titan Capital Management, LLC is an SEC registered investment advisor. Performance results are presented in U.S. dollars and are net-of-fees and trading expenses and reflect the reinvestment of dividends and capital gains. The applicable fee schedule is 1% on the first \$2 million and 0.75% thereafter. Actual fees may vary based on the nature of the relationship and there may be certain accounts included in the composite that do not pay fees. Including non-fee paying accounts in the composite performance may result in higher performance than if the applicable fee schedule was applied to all accounts. A single test account was used in 2015, client accounts were added in 2016. The MSCI ACWI Index is an unmanaged index consisting of more than 2700 common stocks across 23 developed and 24 emerging markets with dividends reinvested and is provided as a representation of the global stock market for informational purposes. The Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bondmarket. Titan believes that the performance shown was generated with an investment philosophy similar to that described in the Titan brochure. Changes in investment strategies, contributions or withdrawals may cause the performance of your portfolio to differ materially from the reported composite performance. The information in this report is believed to be reliable, but this is not a guarantee. Past performance does not guarantee future performance. To receive a complete list and description of the firm's composites, please contact the firm at the address listed.
