

Investment Philosophy

Titan utilizes a tactical investment approach that adapts to the current market environment with the goal of delivering above market, risk-adjusted returns with lower drawdowns than market indices such as the S&P 500. Our strategies seek to participate in up markets while protecting capital during down markets. We rely on our proprietary quantitative models to remove human emotions from the investment process and help us objectively navigate the global financial markets.

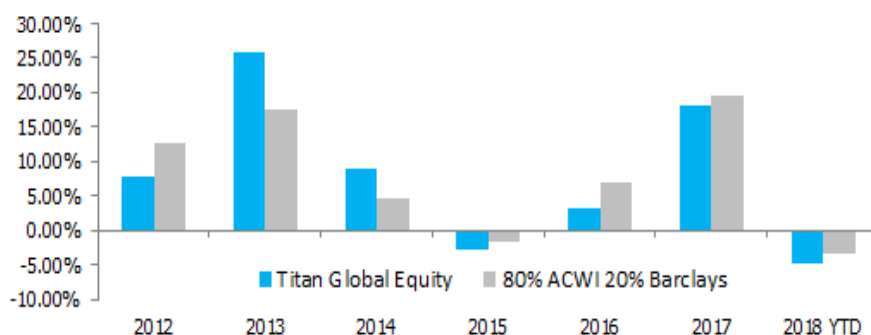

Strategy Objective

The Titan Global Equity strategy seeks to generate higher returns with less downside volatility than the 80/20 blended index (80% MSCI ACWI/20% U.S. Aggregate Bond). The strategy primarily allocates to global stocks using ETFs. There are no fixed allocations. It can allocate up to 100% to stocks and 100% to bonds and cash. This strategy was created for smaller accounts that want to utilize a tactical approach.

DISCLOSURES

Titan Capital Management, LLC is an SEC registered investment advisor. Performance results are presented in U.S. dollars and are net-of-fees and trading expenses and reflect the reinvestment of dividends and capital gains. The applicable fee schedule is 1% on the first \$2 million and 0.75% thereafter. Actual fees may vary based on the nature of the relationship and there may be certain accounts included in the composite that do not pay fees. Including non-fee paying accounts in the composite performance may result in higher performance than if the applicable fee schedule was applied to all accounts. The MSCI ACWI Index is an unmanaged index consisting of more than 2700 common stocks across 23 developed and 24 emerging markets with dividends reinvested and is provided as a representation of the global stock market for informational purposes. The Barclays US Aggregate Bond Index is a broad-based benchmark that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. Titan believes that the performance shown was generated with an investment philosophy similar to that described in the Titan brochure. Changes in investment strategies, contributions or withdrawals may cause the performance of your portfolio to differ materially from the reported composite performance. The information in this report is believed to be reliable, but this is not a guarantee. Past performance does not guarantee future performance.
