\$10 will be paid by everyone at the first match that they fire. If not paid your score will not count for individual awards or the league T Shirts. The only exceptions are new shooters. A new shooter is someone who has not fired a match in any previous year. They will be considered a new shooter for the entire year. If the new shooter would like their scores sent in they must pay the \$10 fee. T shirts will be issued to each shooter that shoots 3 or more matches. They will be issued at the banquet to those in attendance and to Team Captains for those that cannot attend.
