10:30 a.m.	POD Presentation "Potential Operational Delineations or PODs is a new way to look at an old problem. As fires do not recognize jurisdictional boundaries, nor should the pre-planning of future incidents. PODs are spatial units or containers defined by potential control features, such as roads and ridgetops; each POD may be summarized with relevant forest conditions, values at risk, and fire potential. PODs are also a highly useful tool for prioritizing fuels treatments to strengthen control features on the landscape where we need it most and across jurisdictional lines."	<ul style="list-style-type: none"> • Richard Zimmerlee
