A-Line E.D.S. - On-Site Transformer Recycling & Disposal - Our unique transformer removal and recycling process has been utilized for some of the largest transformers ever made. **Forensic Decommissioning** - We utilize our specialized tooling to assist you with your root cause failure analysis. We save you time and money by performing a factory style teardown on site. **Distribution Equipment Recycling** - A-Line provides turn-key recycling for your distribution and miscellaneous electrical equipment. Ask us about our creative solutions. We can customize our service to fit your needs. **Oil Recycling** - A-line E.D.S. can manage your used transformer oils and oil contracts. www.alineeds.com

Beckwith Electric - Beckwith Electric designs and manufactures innovative, high quality products for the generation, transmission, and distribution of electric power. With products for Protection, Controls, Motor Bus Transfer & Synchronizing. www.beckwithelectric.com KS, MO, S.I.L

Borri - Is a global provider of power electronics systems and solutions for harsh industrial and demanding commercial and ICT secure power requirements merging eighty years of experience in developing, manufacturing and supplying uninterruptable power systems and solutions. <http://www.borri.it/>

Delta Unibus / Powell - Isolated Phase Bus Duct, Specialty bus items braid, shunts and hardware. Segregated/Non-segregated Phase Bus Duct • Cable Bus www.deltaunibus.com Division of Powell Industries. We do repair, refurbish and replacement bus systems as well. KS, MO, S.I.L

Metalpol - 50 Years experience, with a focus since 2005 on the Design and Supply of Steel Pole Structures for Distribution, Transmission and Substation Applications - Metalpol can provide structures ranging from 12KV up to 500KV. Products include steel transmission poles, substation deadend structures such as A-frames & H-Frames, and substation equipment supports. Metalpol offers Distribution solutions (**Wood Pole Equivalents**) **LOWER INSTALLED COST THAN WOOD** www.metalpol.com.mx KS, MO, S.I.L, IA, NE

* Highmast, Sports and Roadway Lighting as well as DOT Sign Structures.

Hoppecke Batteries - Since 1927 providing the highest quality batteries to the Utility market. - Wet Flooded Lead Acid 20 year and 25-year designs. NiCad 25-year designs. Unique AquaGen recombinant solutions for reduced watering, VRLA battery designs as well. (Racks, Containment, Chargers, Cabinets). Our Warranty is based on Purchase Price not List Price, what is your warranty from others? http://www.hoppecke-us.com/home_usa.html

Hyundai Electric - Power Transformers 10 – 2000 MVA (to 765kV) Generator Step-Up (GSU) • Auto (LTC) • 25 – 800kV Gas Insulated Switchgear (GIS) Cast Coil Transformers up to 15,000 KVA, Dead Tank SF6 Breakers

NOTE USA factory Montgomery AL. <http://www.hyundai-electric.com> www.hhiamerica.com

KVA - Quality and Innovations in Switchboards, Relay and Control Panels. PanelShelter™ enclosures also offer HVAC, batteries, chargers, DC panels, transfer switches, security systems, lighting and more. Metal or concrete enclosures can be placed on piers, gravel or a concrete slab foundation. **Upgraded Breaker Control Doors**. www.kva-emc.com KS, MO, S.I.L, IA, NE

Lindsey - Quality and Innovations in Transmission and Distribution Since 1947 All load rated hardware is destructively LOT tested in accordance with IEEE-Standard C135.61 "IEEE Standard for the Testing of Overhead Transmission and Distribution Line Hardware". Current and Voltage Monitoring for Overhead, Underground and Substation designs. Rollers for bundle distribution, aerial cable rollers and Transmission Travelers. www.Lindsey-USA.com NEW LiDAR line monitor and SMARTLINE TFC Dynamic Line Rating (DLR) maximize your transmission assets. KS, MO, S.I.L, IA, NE

Morpac - Air Break Switches through 800kV designs. Vertical Break, Horizontal Break, Center Break, Manual or Motor Operated, Single Pole Hook Stick or Group Operated all designs. www.morpac.com KS, MO, S.I.L, IA, NE

(NASS) North American Substation Services - Established in 2005 and headquartered in Orlando, Florida, North American Substation Services (NASS) is an independent repair, maintenance and installation provider for electric utility substations throughout the United States. The company offers transformer, circuit breaker and engineering services to electric utilities, original equipment manufacturers (OEM) and industrial customers. With eight locations throughout the country, NASS is the only independent company of its kind with a nationwide footprint. www.nassusa.com

NGK Locke – Porcelain & Polymer Insulators 15kV - 765kV Designs Station Post, Line Post, and Suspension

• Complete Insulator/Hardware packages available.

<http://www.ngk-locke.com/> KS, MO, S.I.L, IA, NE

Oldcastle Enclosure Solutions Plastibeton Systems and TRU FIREWALL refractory design. KS, MO, S.I.L, IA, NE

Oldcastle Precast Concrete Solutions, focus on cast in place conversions, and redesigning existing precast equipment to reduce cost and enhance design. Standard products in precast are; Manholes (Vaults) pull boxes, Sumps, Collection basins, as well as water retention / detention. Anything precast that you are designing we would like a chance to visit with you about it. www.oldcastleinfrastructure.com

Phoenix Electric Corp. - Current-Limiting Reactors • Neutral Grounding Reactors "CAPTURE" www.pec-usa.biz "CARE" Critical Asset Recovery Equipment KS, MO, S.I.L, IA, NE

"Peak Substation" Substation and transmission line packaging. Peak is a premier substation packager and high voltage material manager providing substation structures 15kV to 765kV, engineering support, major equipment, bus work and grounding to EPC, Consultants, Contractors, as well as IOU, MUNI, Cooperative Utilities and Industrials www.peaksubstation.com

Post Glover - Grounding • Grid, Ribbon • Edge and Wire Wound Resistors • Zig-Zag Transformers • Resistor Packages • Neutral Ground Resistors • Custom Design Resistor Banks • HRG Systems PULSER PLUS www.postglover.com KS, MO, S.I.L, IA, NE

Powell - Metal-Clad Switchgear • Unit Substations • Power Control Rooms • Generator Breakers thru 5200A 38kV ARC Resistant MV Switchgear, MCC and LV Switchgear. Replacement Breakers for GE Magna Blast, Westinghouse DHP, and many other NEW ANSI TESTED. Powell Service Division "we work on and support any manufacturers equipment". www.powellind.com PowerVAC 5 & 15kV Vacuum Switchgear NEMA3R Designs KS, MO, S.I.L, IA, NE

Utility Metals - One of the most complete lines of lighting brackets • Steel and Aluminum most all standard DOT or Power Utility designs as well as custom designs welcome • Roadway, Area or Sports lighting. Also Lighting Poles see would web page www.utilitymetals.com

***Not all manufacturers are represented in all territories.**
