

*Black Street Power Exchange Clean
Renewable Energy*

*Un-Clean Fuel Yesterday,
Clean Renewable power Today.*

*The Answer,
“Renewable Energy”*

*Solar Power to the People, regardless how
Rural or Remote the Area.*

Mission statement:

*Using Solar Power, we join the fight to
ensure a Zero Carbon Footprint, to help save
our planet*

Objective

*Help make New Mexico the Leader in Clean
Renewable Solar Generated Energy*

My name is James M. Lee Jr. managing partner of Black Street Power Exchange LLC.

We have a Three Pronged approach to Clean Renewable Solar Energy in New Mexico

1. Our firm has direct access to alternative funding solutions, for large Clean Renewable Energy projects in New Mexico
2. Black Street Power Exchange, LLC will provide joint-partnership arrangements with property owners to design a Solar Farmer or Renewable Energy System.
3. Black Street Power Exchange LLC. Using Clean Renewable Energy, has the requisite technical expertise, infrastructure and management teams to undertake new construction such as new Solar Farm; or to Retrofit an existing operation, such as the transition from fossil fuels to Solar.

Renewable Solar Generated Power, will provide

- a. Substantial Income.
- b. Job creation.

EVERY HOME in your community can have Reliable Electricity.

There will be:

No Black outs, ***No*** Brown outs,

No Reduction in power in order to serve other communities,

No Rate increase during so called peak hour consumption.

In addition access to ***Broad Band Internet***, will be a reality.

All of this will be accomplished using "Clean Renewable Solar Generated Power
