# COUNTDOWN TO COACHING SESSION IN AAVA

## **ANGEL SUZANNE STEED (1946-2020): A TRIBUTE**

At one point in her life, Suzanne was the Secretary at Crockett Economic and Industrial Corp., and an Angel. With the assurance of inclusion, she could make anyone feel her virtual wings spread deep and wide, and no one was left behind. She had a way of planting the kind of ideas that actually blossomed. On October 30, 2019, Suzanne was taking pride in a particular part of Houston County history. We were emailing back and forth about Mary Allen.

### **Mary Allen**

In the late 1800s Mary Allen Seminary was located in Crockett, Texas. The fifth-oldest city in Texas, according to the National Association of Counties. Mary Allen was a real person, she died in April 1887. Her name is synonymous with the Seminary and Mary Allen College. The school was founded in 1886 and named after Mary Allen in Crockett, by Presbyterian pastor Richard Allen and Mary's husband. Initially the school opened its doors to the Descendants of freed black women. Some had narrowly escaped slavery by running away, others by self-purchase. The Ancestors of these descendants, experienced hard difficult lives, a precious few had been granted freedom by their owners. The overwhelming mass of these students ancestors were freed by Emancipation.

During the classical period 8<sup>th</sup> Century B.C., people thought the study of liberal arts was for free people, the thought continued into the 6<sup>th</sup> Century A.D.. Mary Allen Seminary provided liberal arts, plus a curriculum of other subjects, like cooking, dressmaking and nineteenth century hat making. Suzanne openly shared the county's amazing history, expressing the vocation drawn to ethics in the Garden of Eden, in ways garden fresh perspectives are trending in the 21<sup>st</sup> century.

So, Dear Suzanne, this Tribute is to you, your love for Houston County, and your special touch, to keep in touch as a testimonial to your wisdom. On October 30, 2019, I wrote: Suzanne "You are amazing. I look forward to what ever God lead you to do. God Bless You." On October 31, 2019, at 9:34 AM, Suzanne wrote: "Keep in touch. I feel like I have already met you in person, isn't this strange."

"It isn't strange Suzanne. You and yours are in my prayers, all year-round!"

# CHAPTER 1.

## CPMHC

### CIRCUMSTANCE OF CHENEYBORO, PELHAM MCLENNAN, AND HOUSTON COUNTY

---

**T**he double AA in (AAVA) means **AN ANGEL. AAVA: AN ANGEL VIA ANGELS. These miracle angels. Their disappearance left us in grief. They came to earth with a purpose, and left us far too soon.** Under the circumstance of the military Father in the middle eighteen hundreds, and the early nineteen hundreds the Mother had to battle for the education of her Child. Many have sought the astral AAVA for well over one hundred years. The Child, like the Phoenix has indeed risen from the ashes. Prior to having a successful child scholarship, every family should step outside their realm, if only for a few moments, and view the spacious blue skies together. Conjointly, fill a few canisters with tap water from the hydrant. Next, gather the coins you've rolled to take to the bank, but haven't. Then grab your favourite electrical tech devices and pull them up inside the car. Now, you're all set to travel together as a family where ever there are amber waves of golden grain, which can be fun. If your mental vision is really compelling, can you imagine how much more beautiful the Angel's in Heaven must be? Cheneyboro Pelham, McLennan & Houston County are great places to go and rekindle a togetherness past.

# **“WHAT A SON CAN GLEAN FROM VERY OLD CEMETERIES? SUZANNE’S WINGS IN AAVA”**

It isn't so much that an old cemetery has been around for awhile. Instead it's more that a community has sustained due to the community regenerating its talent. In other words, people do of course move, but they returned with an eagerness to do good for their old community. Up until the bitter end of the eighteen hundreds, a cemetery would almost inevitably provide you with every member of each family buried. Community members that once lived together in harmony within a nuclear household. Case in point, under the Republic of Texas flag, Houston County, was first created as a new county. Cemeteries reflect military family men that died in the war. The same with Mc Lennan county, and it's Baylor University. Cheneyboro, and Pelham in Navarro county were parochial or private religious schools. To know Pelham, Texas is to know the year 1866. This would include knowledge of families like the , Westbrook, Carruther, Blair, Porter, and the myriad of family surnames buried in the Cheneyboro & Pelham Community Cemetery. Cheneyboro, named in honour of Marion Cheney. Since the only church Silent Grove Baptist Church (SGBC), burned to the ground, remaining, is the Cheneyboro boat ramp, and the historic SGBC Cemetery #1, and SGBC Cemetery #2. If a Son or Daughter would really like a challenge? They should try a bit of cemetery math. Another case in point. Gleaned from the headstone of Henry S., (no middle initial on stone) (1866-1941) born the same year Pelham, Texas was established. Henry died approximately two weeks before his 7<sup>th</sup> son became a grandfather. Henry never saw his great-granddaughter. His initial "S" was from his informant son on his death certificate. One hundred years later, the year is now 1966. Henry's great-great granddaughter, is now a student in grade school. She also has a "S" as her middle initial. As a bonus, another great-great granddaughter is born in the year 1966. "WHAT A SON CAN GLEAN FROM VERY OLD CEMETERIES? And Suzanne Wings In AAVA." He can be wishful gleaning beautiful memories of Suzanne. He can also, glean with anticipation birth & death information from the year- 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, to 1969. what occurred during those years? What was missed? Plus he can add an additional 100 years of new information that he personally experienced. Finally, he can follow a loved one's birth and history. Not to mention the gleaning of spookiness, and the fear of horror whistling while walking through a graveyard. Why my precious son, there's NO FEAR, our Angel Suzanne is there with her tender and soft gossamer wings of peace flowing with whispers of loving memories of her protection in the air. Oh if only we could have the kindness of Suzanne. If only we could witness her style and grace. If only we could hear her voice one more time. It's like the words the Biblical David recounted when he lost his son. Suzanne will never return to us, but we will go to Suzanne. Of this be assured a son can glean from an old cemetery.AAVA; AN ANGEL VIA ANGELS The Father of 15 children was Henry S. Sr., his wife was named Fannie, she was the Mother to all 15 children, in order of birth the first born was Henry Jr., the second born was named William, the third child John-Adam was named differently. His paternal grandfather was John, and his maternal grandfather was named Adam. the fourth child was Narcissus. and the fifth child was named Amos.
