

# BCS 574

## **DESCRIPTION:**

A combination of powdered alkaline cleaners and detergents to which has been added a special abrasive material to provide surface refinement.

## **USE:**

BCS 574 is designed to be used where low micro inch finishes are required, especially on flat surfaces. BCS 574 may be used to supplement action of media or may be used for part-on-part tumbling applications. BCS 574 can be used in all types of equipment.

## **SPECIFICATIONS:**

Normal usage is 8 to 16 ounces per cubic foot of mass, depending upon the application. Provides adequate rust protection on steel parts during use.

**pH:** 9.5 – 10.0

For additional information such as physical characteristics, safety precautions, disposal, etc., see corresponding SDS.
