

Children & Adolescent Therapy

Timespan: 1.5 hours

Cost: \$90

Most of us want the best for our children, sometimes it seems they are indifferent, impossible, secretive, volatile, impulsive, disagreeable or ungrateful. None of these behaviors are what a child "is". They are character traits that are being cycled through to understand the complexities of attachment, survival and the balancing act of happiness. With a little guidance, kids prosper. Without guidance, they simply suffer extended difficulties. Be available, now.

THIS COURSE IS VIRTUAL, HAS THE FLEXIBILITY TO MERGE INTO THERAPY SESSIONS IN PERSON, UPON REQUEST.
