

TEMPORARY FLOOR PROTECTION, SLIGHTLY ADHERENT

protects

waterproof

anti-skid

breathable

reusable

floorotex is an innovative surface protective product suitable for all types of flooring such as wood, laminate, vinyl, ceramic, carpeting, and even countertops. It is ideal for remodeling jobs as well as new construction. Made of recycled polyester fiber and polyester waterproof / breathable film with an added spray-on adhesive to hold it in place. A must for contractors, painters, furniture movers, and flooring installers.
