

## ***People got to move***

# **19**

**People come on, and do it right  
Shake your behinds like dynamite  
Chuck all your worries, and toss your thighs  
To be tame is a pain when you realize**

**You gotta move... You gotta move...  
You gotta move... People gotta move... You gotta move...**

**Shake all your brains, and pump your heart  
Show all the world what you are  
You come on for right, you come on for wrong,  
you come on for zeal  
'Cause the tones of your bones makes you feel**

**You gotta groove .... You gotta groove .... You gotta groove ....  
People gotta move..... You gotta move...**
