FAIRWAY MOWERS

#### FEATURES

- Powerful Tier 4 compliant engines featuring Yanmar® 3-cylinder, liquid-cooled, diesel engines.
- Proven Reliability & Performance time tested platform delivers exceptional durability, high performance and versatility.
- Enhanced climbing and hillside stability CrossTrax® all-wheel drive system is based on the Toro patented Series/Parallel™ design. If one of the front tires begins to slip, power is transferred to the opposite rear tire for optimum traction.
- Precise Monitoring & Control an onboard InfoCenter allows viewing and changing of settings. It also provides essential information about service intervals, diagnostics and faults. Toro's Mow Speed Limiter is a simple mechanical design which produces consistent results regardless of the operator.
- Unparalleled Operator Comfort with a tilt steering wheel and easy-access steps for every size operator, to a deluxe suspension seat, and a well thought out design that moved the radiator to the rear of the engine compartment to move heat rejection and noise away from operator, these fairway mowers are designed for a comfortable, all-day operation.
- Outstanding Quality of Cut –
  Dual Precision Adjustment (DPA)
  cutting units featuring Toro's
  all new EdgeSeries™ reels combine
  to deliver a consistent, high quality cut
  and superior after cut appearance, while
  reducing maintenance with improved reel
  edge retention.

#### Leading by reputation.

Performance, productivity and quality are just words if a piece of equipment has not earned them through actual customer usage. After 10 years of satisfying customers, the Reelmaster 5410, 5510 and 5610 have earned a reputation for delivering exceptional performance, maximum productivity and high quality. And we haven't stood still over the years. Toro spends a lot of time listening closely to our customers to better understand their evolving requirements. Based on customer input, Toro engineers continually work to refine and improve each fairway mower to meet those needs. Everything from operator

comfort and efficiency, to tractor performance, to cutting unit after-cut-appearance improvements, and even ease of maintenance is reviewed in our relentless effort to maximize productivity and efficiency.
