

# Long-Range for Demanding Hospitality Environments

Ideal for: Front Desk, Management, Security, Maintenance, Food Service and More!

As the leader in Industrial Cordless phone systems, DuraFon systems are designed to bring voice communications to large and demanding environments where employees require mobility.

DuraFon's durable design can withstand the demands of the workplace. Handsets are drop-tested to ensure the bumps and drops of normal use are endured.

*"Simply one of the best solutions for on-premises communications for on-site mobile employees."*

**- Doug Hayter**

From a single handset, DuraFon systems provide telephone and two-way radio communications inside and outside the property.

With coverage of up to 12 floors or even 250,000 sq. ft. in an open facility environment, the DuraFon system increases productivity regardless of employees' location on the property.

# Long-Range Industrial Cordless Phone Systems

## Long-Range Industrial Cordless Phone up to:

- 250,000 sq. ft. (warehouse/mfg)
- 12 floors (office/hotel)
- 3,000 acres (farm/ranch)

## Expandable

- Add handsets and/or ports (varies by model)

## Digital Two-Way Radio

- Broadcast to all handsets
- Broadcast to a group of handsets
- Intercom privately between handsets

## Durable

- Drop-tested
