Year 6 Students transitioning to Intermediate in 2022

If your child is going to a different school for their intermediate years, here are some things you can do to help them get ready:

Contact the school and find out about their enrolment process and timing, and to get enrolment forms. This is particularly important if you want to enrol your child in a private or independent school, or you're an [out-of-zone enrolment](#).

- Find out about open days at the school and encourage your child to go along and get familiar with the place. Sometimes intermediate schools work with primary schools to run information sessions so that the primary school can take all the interested year 6 children and their whānau along to the intermediate together. If they have parents and/or carers events, go along and meet the teachers and other parents and/or carers.
- Talk to friends and family who know the school about what to expect.
- Work out how your child will get to and from school, and plan any before and/or after school care.

Get ready ahead of time with things like stationery and supplies, school uniform and sports gear. The more prepared you are, the less stressful the change will be. The school should be able to give you a list of things to bring.
