

Air Jaws Observations

Name:

Period:

Watch the movie about scientists observing Great White Sharks off the coast of South Africa. Imagine that you were on the boat with them. In the chart below, write down what you observe about the sharks and their behavior. Remember that you should make **objective observations** (facts: "the shark has a powerful tail") as opposed to **subjective observations** (opinions: "the shark is happy").

body part / behavior	helps the shark to survive by...
