

# Thinking Environment®

## Leaders as Partners

### Thinking Pairs demonstration: invitation to reflect

In this video Shirley and Caroline demonstrate the Thinking Pairs with a live project. Shirley is Caroline's employer, and they are thinking together about:

What would draw people to a 'Leaders as Thinking Partners' course, and what should be in it?

Each thinks through the question in turn, 15 minutes each way. It isn't a full Thinking Partnership®, which may take longer and involves carefully defined steps.

How does this compare to ways you've experienced of working together on a project?

What happens as both listen to each other?

What is the effect when each has equal time?

How do they treat each other?
