

June 2024 Addendum to: *A Citizen's Guide to the Biological Assessment of Wetlands*

Page	EDIT or CHANGE	COMMENT
Cover; various	Changed MPCA logo to current Minnesota enterprise logo	
20-21	Minor formatting change	"Opposite or Whorled leaves" moved to next page
37	Leaves: "compact and alternate on the up-per stem, becoming more opposite on low-er parts of the stem"	Pertaining to Epilobium, revised description
44	Added " <i>species differ</i> ";	Pertaining to Eupatorium leaves description, revised description
56	Changed page reference for description from 65 to "71"	Pertaining to Scirpus
59	Added, "Mostly with parallel veins"	Pertaining to Potamogeton
78	Changed "Aquatic" to "Aquatic Guild"	Comment recommended defining "Aquatic Guild"
82-83	Updated relevant identification literature and websites. Notably: Minnesota Wildflowers Info. https://www.minnesotawildflowers.info/page/contact . Katy Chayka	Some references address and a few deleted
88	Added upper "6" cover class ranging 75-100%	Previously omitted from data sheet
91	This includes the submergent aquatic forbs and floating leaved aquatic forbs listed on the releve data sheet.	Edited the Aquatic Guild metric description
92	Data must be converted from CC to midpoint % before being added together, because the ranges that CC's represent are not equal.	Pertaining to Persistent Litter metric scoring method
93	Are there any potential threats to the wetland (e.g. new developments, stormwater inputs, roads, etc)?	Completed sentence fragment for the "Additional Site Remarks"
