REELMASTER® 3555-D & 3575-D

FAIRWAY MOWERS

Performance you expect,
in a size you didn't.

WITH
EdgeSeries™ Reels

TORO

Reelmaster® 3555-D & 3575-D

Productivity, Efficiency, Simplicity.

Lightweight Design

With weights that are 20 percent lighter than other comparably equipped 4-wheel drive fairway mowers, a low center of gravity and well balanced weight distribution, the Reelmaster 3555-D and 3575-D are engineered to be highly productive and fuel efficient, with reduced turf compaction.

Excellent Quality of Cut

Dual Precision Adjustment (DPA) cutting units featuring Toro's new **EdgeSeries™** Reels combine to deliver a consistent, high quality cut and superior after-cut appearance, while reducing maintenance through improved reel edge retention.

EdgeSeries™ Reels

Simple to Operate

The Reelmaster 3555-D and 3575-D are built upon a common platform with other popular Toro mowers that have proven to be operator-friendly and highly productive.

Highly Maneuverable & Easy on Turf

The 3-wheel design maximizes productivity during end-of-row turn arounds. Smooth, turf-friendly tires significantly decrease turf tear, particularly in tight turns.

Powerful & Fuel Efficient

A robust 24.8 hp (18.5 kW) Kubota® diesel engine provides plenty of power to climb hills, even while operating groomers and rear roller brushes, yet it uses less fuel than other 4-wheel drive fairway mowers.

4
TIER

Easy to Maintain

A simplified tractor design utilizing a Tier 4 compliant engine, without the expense or complexity of larger engines that require Tier 4 after-treatment systems, saves money in fleet maintenance expenses.

All-Wheel Drive Traction

The Series/Parallel 3-wheel drive system provides power to at least two wheels at all times. The result is impressive hill climbing and hillside stability, even in wet conditions.

Engineered to Perform.

Productivity, efficiency, simplicity and lighter weight, all packed into a compact chassis.

The Reelmaster® 3555-D (5 inch/12.7 cm reels) and 3575-D (7 inch/17.8 cm reels) were designed to be over 20% lighter, and much more compact than a traditional Toro fairway mower. The result is fairway mowers that deliver the performance you've come to expect from Toro, in a size that is highly maneuverable, and engineered to decrease turf compaction in sensitive areas.

With a 100 inch (2.5 m) cutting width and up to 7 mph (11.3 km/hr) mowing speed, the Reelmaster 3555-D and 3575-D are fast and effective.

Both the Reelmaster 3555-D and 3575-D take a full complement of fairway mowing attachments, including rear roller brushes, groomers, fairway grooming brushes and grass baskets. The new Reelmaster 3555-D and 3575-D, engineered to perform, designed not to leave a big impression on your turf.

Count on it.
