Review Town Cemeteries (Discussion)

- Warner Hodgdon reported all the tree work that was funded by the board will be completed this winter. He reported there is increased traffic at the cemetery resulting in the need for additional upkeep efforts. He suggested closing the vehicle gate immediately to attempt to control traffic but leaving the gate unlocked so the cemetery is still functional.
- The Cemetery Committee recommended extending the cemetery's closure from Nov-April to Nov-May, while keeping the pedestrian gate open and allowing for approved activities to be conducted as planned. The Cemetery Committee asked for clarification on what their role is in the decision-making process. The Selectboard informed they are responsible for creating policies to present to the Selectboard for implementation. The Selectboard further clarified that they are responsible for maintenance contracting such as lawnmowers etc., but the input of the Cemetery Committee is encouraged.
