Notes: For LED Conversion	

TERMS AND CONDITIONS

CMP will supply and maintain the outdoor lighting service described above in accordance with CMP's rates and Terms and Conditions on file with the Maine Public Utilities Commission as amended from time to time. CMP will give the Customer a copy of CMP's current outdoor lighting Terms and Conditions upon request. CMP will furnish, own and maintain standard distribution-type poles, laminated wood poles, and decorative poles. When such poles are furnished strictly for area lighting, the customer shall pay a special facilities charge. If any light fails to operate, CMP will repair or replace it, at its option, within a reasonable time after the customer gives CMP notice of the light failure.

The Customer will pay the charges for this outdoor lighting service from the date of installation until this Agreement is terminated. The Customer will furnish, own and maintain any poles other than the standard types offered by CMP. The Customer will provide CMP with notice of light fixture failure.

This Agreement shall commence upon signature by both CMP and the Customer, and shall continue in effect until fifteen (15) years _____ after installation of the outdoor lighting that is the subject of the Agreement; provided, however, that either party may terminate this Agreement upon thirty (30) days written notice to the other party. After the initial fifteen (15) year term, this Agreement shall continue in effect from month to month, unless either party provides thirty (30) days written notice that it does not wish to continue under this Agreement.

If the Customer terminates this Agreement less than fifteen (15) years after installation, or if the Customer fails to fulfill its obligation under this Agreement and CMP terminates this Agreement as a result thereof, the Customer will pay CMP the unused investment and removal costs of the equipment in accordance with CMP's outdoor Lighting Terms and Conditions. This Agreement shall also terminate if the municipality serving the Customer assumes the obligation for payment of the service described in this Agreement under CMP's Municipal Street Lighting Rate SL, by having an appropriate municipal official give CMP written notice thereof.

All of the facilities furnished by CMP are personal property and CMP shall retain title to them. CMP shall have reasonable time after termination of this agreement to remove these facilities.

The Customer will release, defend (at CMP's option), indemnify, and hold harmless CMP and its directors, officers, employees, contractors, agents, affiliates, successors and assign, from and against any and all liability, claim, cost and expense of any kind or nature, arising out of or related to the use or presence of the facilities on the Customer's premises. This obligation shall survive termination of this Agreement.

The provisions of this Agreement shall inure to and be binding on the parties' respective heirs, executors, administrators, and successors and assigns.

The parties reserve the right to amend this Agreement at any time to comply with any ruling or decision of any governmental body.

Additional Provisions for Underground Service

CMP will supply underground service for street and area lighting only in commercial developments, and, in conjunction with underground residential distribution, in housing developments and mobile home parks.

The Customer shall: (a) excavate and backfill the trench and provide all necessary duct lines and conduit; (b) contribute toward the initial cost of the underground feed in excess of 125 feet per light per circuit, measured from the base of the pole, in accordance with CMP's filed Terms and Conditions, and reimburse CMP for all necessary maintenance and repairs for the entire length of underground feed, (CMP will own the entire length of the underground feed, including the length over 125 feet).

CMP will also connect to customer-owned underground installations conforming to CMP specifications and will provide luminaries and brackets on customer-owned poles at the monthly rate contained in CMP's filed terms and conditions after installation, CMP will own underground line and maintain it. All of the Terms and Conditions for CMP installed lines shall apply, except the Customer shall be responsible for full cost of installation.
