TORUS

TRANSFORM YOUR WORKPLACE –
IMMEDIATELY AND FOREVER

DELTA TELECOM
SOUND & SECURITY LTD.

KEY MANAGEMENT MADE SIMPLE AND SECURE. THAT'S TORUS.

Australian made and designed, Torus is a high-security solution that gives you complete control of your organisation's keys.

With a strong history and reputation among the Australian military and other government agencies, Torus has been revolutionising key management since 2001.

Harnessing the latest technologies for security and peace of mind, Torus will elevate the efficiency, security and safety of your workplace.

What's more, you can deploy Torus quickly – and access it from anywhere in the world.

DELTA TELECOM
SOUND & SECURITY LTD.

COMPLETE CONTROL AT YOUR FINGERTIPS

Torus protects your assets, people and reputation.

It's quick to install and easy to use.

Torus enables you to remotely manage your keys from anywhere - delivering greater efficiency and security to your workplace.

Easy to use
Torus cabinets and software are easy to use - no training required.

Quick to install
Cabinets securely connect to Torus software via the internet. No software installation required. No mains power required - Torus uses PoE.

Remote key control
Make fast, informed decisions with insightful dashboards and reports, anywhere, anytime.

Scalable
Perfect for organisations with multiple locations, stateside, national and global.

SMS and email alerts
Resolve security risks faster and keep the right people informed.
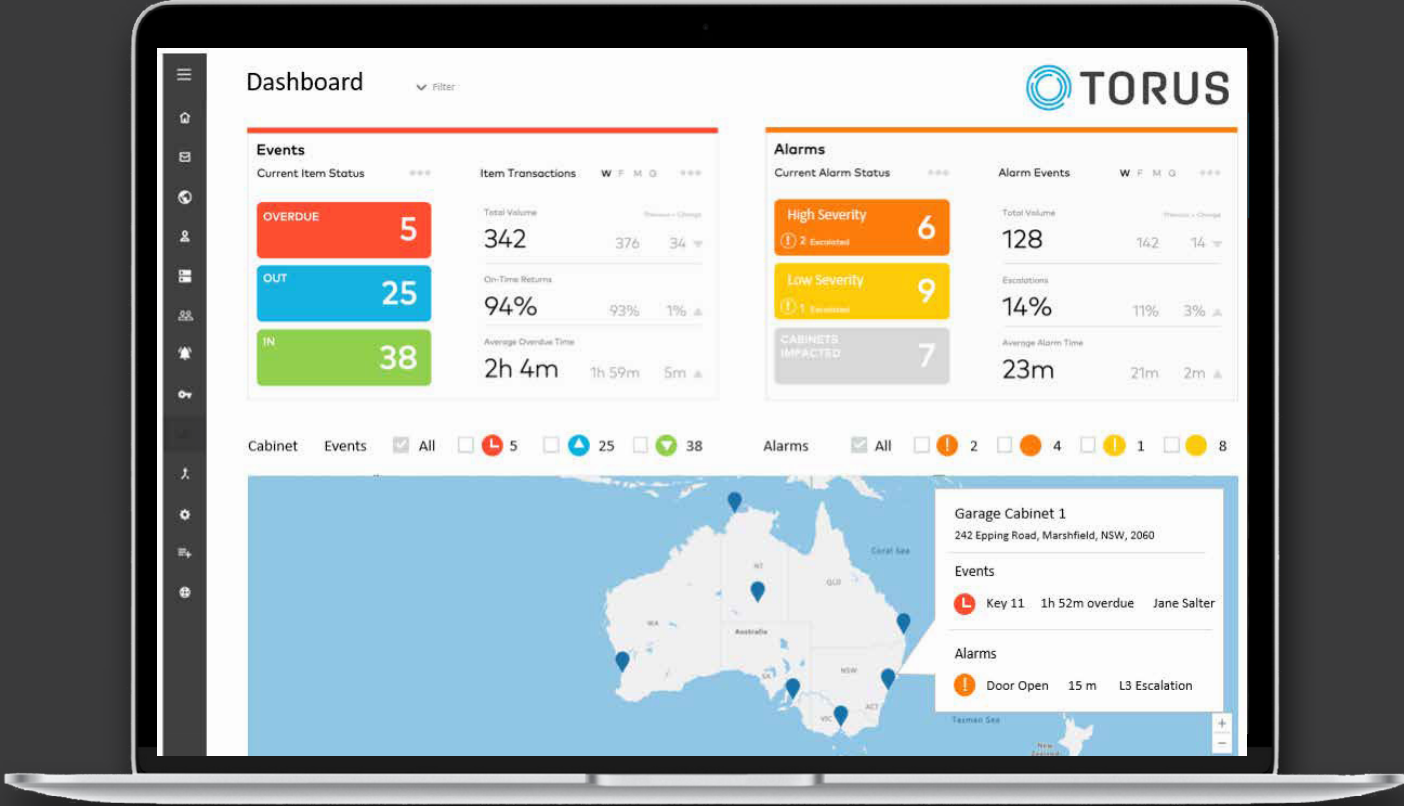

Certified Security
Torus uses best practice encryption and identity management. This includes multi-factor authentication and one-time PINs.

A solution for the future
With over-the-air updates the Torus solution keeps evolving making it a smart, long term investment.

INDUSTRIES THAT PLACE THEIR TRUST IN TORUS

GOVERNMENT & DEFENCE

Government and defence sites need a first-rate key management system – with zero room for risk.

Torus exceeds the minimum SCEC guidelines for Security Levels 1 & 2.

EDUCATION

Campuses have many staff and contractors who need to access keys across many buildings and locations, making key loss a common problem.

Torus monitors the real-time status of keys, eliminating the wasted time and costs associated with replacing keys and locks.

HOSPITALITY

Hotels, pubs and clubs often have large numbers of keys which staff and contractors use across multiple shifts.

Torus provides tight audit trails and automation to greatly reduce the security risks and time wasted with manual key management processes.

HEALTHCARE

When it comes to hospitals, medical facilities and clinics, risk management is non-negotiable.

Torus lets healthcare providers protect their equipment and pharmaceuticals, helping to improve the hygiene, security and safety of their facilities.

MINING

Mining companies often have ineffective key management practices which can compromise the safety of their personnel.

By automating and integrating access control policies, Torus greatly improves the safety and efficiency of these workplaces.

UTILITIES

It's never easy for utilities businesses to track and control keys across their many locations and personnel.

The Torus IoT solution enables these businesses to automate their key handling processes with ease and efficiency.

PROPERTY

Every day, property managers need to provide keys to a wide range of people – including staff, contractors, tenants and owners.

By controlling and monitoring key usage in real time, Torus eliminates the costs and risks that arise from manual processes.
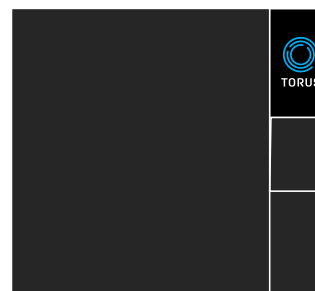

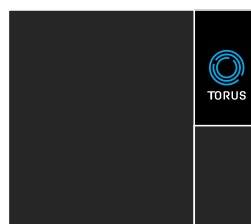

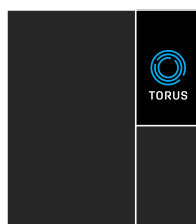

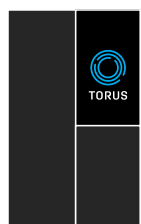

FLEET MANAGEMENT

When managing large fleets of vehicles, it's imperative that the right drivers can access the right vehicles at the right times.

The Torus vehicle booking solution enables fleet managers to achieve this goal – every moment of every day.
