

“The Solution Is Science®”

Formulating advanced chemistry and lubricant solutions for the metalworking industry. Products proven to improve manufacturing performance, part quality and cost savings!

CORROSION REMOVAL

Consultant Lubricants, Inc

9150 Neutral Rust Cleaner

Non-Hazardous Formula

- 1) Safe and Operator friendly** - 9150 is non-hazardous and generates a non-hazardous waste water.
- 2) Water Based, Non-Hazardous, and pH neutralized** - 9150 is versatile to many operations.
- 3) Eliminates need for mechanical rust removal** - 9150 saves costs, time and labor.
- 4) Ease of Application** - Immerse and soak 9150, spray on, or apply to wipes for removing flash rust immediately.

Consultant Lubricants' 9150-REM is formulated to provide manufacturers with a safe method of removing unwanted rust.

Typically, manufacturers encounter occasional corrosion problems and need to remove the rust prior to shipping or finishing. 9150-REM will help eliminate the costly need to scrap these parts, send them out for rust removal, or utilize a hazardous method of rust removal.

9150-REM can be applied to the rusted parts in a variety of methods, making it versatile to the different manufacturing operations found in one or many plants. Also, 9150-REM can be diluted with hot water for light rust, long application periods, and cost effectiveness. Rinsed solution is safe for sewer disposal due to its non-hazardous formulation and neutral pH. NOTE: Clean surfaces are susceptible to rust. Apply corrosion inhibitor as appropriate for needs after removing rust.
