To Whom It May Concern

**Re: VUKSICH & BORICH (NZ) LTD  
HEALTH AND SAFETY REFERENCE**

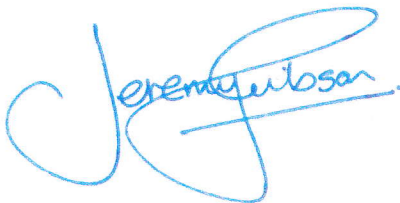

I have worked with Vuksich & Borich on a large range of projects over many years and have always found their attitude to Health & Safety to be proactive and professional.

Vuksich & Borich follow their own comprehensive Health & Safety system and rules as well as fully complying with the Fletcher systems.

I have managed several projects with Vuksich & Borich as a subcontractor that involved significant works in public areas, including roadworks, services laying, drainage, most recently at Pak n' Save - Wairau Road, Ormiston High School and have always had confidence that they were controlling the Health & Safety issues relating to the public very professionally.

I have no hesitation in recommending Vuksich & Borich for engagement on any civil project.

Yours faithfully  
**The Fletcher Construction Company Limited**
