Hearing of Citizens

Rick Ricker- Concern over having two different companies do the paving and shoulder work. This leaves the Town in a comprising situation if one company blames the other one for an issue with the shoulder work or the paving, believes it should be one company.

Lori Harmon- She does believe that because the Town does not have a contract in place with Ricky storing his salt and sand at the Town shed that it does leave the Town in a liability situation. She also sees lots of loopholes in the current contract that the Town has with Town owned properties contract.
