INDEPENDENT AUDITORS' REPORT

Board of Directors Resort Improvement District No. 1 Shelter Cove, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Resort Improvement District No.1, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the minimum audit requirements for California Special Districts issued by the State Controller's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal

control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Resort Improvement District No. 1, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Provisions of the following Governmental Accounting Standards Board Statement, which became effective for fiscal years beginning after June 30, 2014, affect the financial reporting of pensions:

Statement No. 68 – Accounting and Financial Reporting for Pensions

The emphasis of these matters does not constitute a modification to our opinions.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Management has omitted the Schedule of Contributions and Schedule of Proportionate Share of CalPERS which is required supplementary information.

Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, if provided, and budgetary comparison schedules on page 31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the

information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Resort Improvement District No. 1's financial statements as a whole. The introductory section, and combining and individual financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Resort Improvement District No. 1 (District) was formed April 29, 1965 under the provisions of the Public Resources Code of the State of California. The District is governed by an elected board of directors and provides fire, recreation and utility services to the unincorporated area in Humboldt County generally known as Shelter Cove.

The financial statements of the Resort Improvement District No. 1 have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Reporting Entity

There are no significant activities or Districts on which the District exercises oversight responsibility which require inclusion in the financial statements for the year ended June 30, 2017. The following criteria regarding manifestation of oversight were considered by the District in its evaluation of Districts and activities to include or exclude:

Financial Interdependency - The District is responsible for its debts and is entitled to surpluses. No separate agency receives a financial benefit, nor imposes a financial burden on the District.

Election of Governing District - The locally elected governing board is exclusively responsible for all public decisions and is accountable for the decisions it makes.

Designation of Management - The governing board appoints District management. All activities under the purview of management are within the scope of the reporting entity and management is accountable to the governing board for the activities being managed.

Significant Influence on Operations - The governing board has the legal authority to significantly influence operations. This authority includes, but is not limited to, adoption of the budget, control over all assets, including facilities and properties, short-term borrowing, long term borrowing as limited by state law, signing contracts, and developing the programs to be provided.

Accountability of Fiscal Matters - The responsibility and accountability over all funds is vested in the District management.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Basic Financial Statements - Government-wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District's fire department, parks and recreation, airport and general administrative services are classified as governmental activities. The District's water, sewer services, and electric activities are classified as business-type activities.

In the Government-wide Statement of Net Position, both the governmental and business type activities columns are presented on a consolidated basis and are reported on a full accrual, economic resource basis. The District's net position is reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. At the end of each fiscal year, all current year activities of the general government fund is allocated and transferred to the business type activities. The District does not keep a separate general fund bank account.

Fund Accounting

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate "fund types."

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long term debt (debt service funds). The general fund is used to account for all activities not accounted for in some other fund.

<u>Proprietary funds</u> are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the District (internal service funds). The District maintains enterprise funds for its electric utility, water utility, sewer utility and golf recreation activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Accounting (Continued)

<u>Fiduciary funds</u> are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, either a pension trust fund, a nonexpendable trust fund or an expendable trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the government is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent.

Fund Balances, Reserves and Designations

In the Fund financial statements, fund balances represent the net current assets of each fund. The District's fund balances are classified based on spending constraints imposed on use of resources. For programs with multiple funding sources, the District prioritizes and expends funds in this order: Restricted, Committed, Assigned, and Unassigned. These are defined as follows:

Nonspendable represents balances set aside to indicate items that do not represent available or spendable resources, even though they are a component of assets. Fund balances required to be maintained intact, such as Permanent Funds, and assets not expected to be converted to cash such as prepaids, are included.

Restricted fund balances have external restrictions imposed by creditors, grantors, contributors, laws, regulations, or legislation which require the resources be used only for specific purposes.

Committed fund balances have constraints imposed by formal action of the District Board, such as an Ordinance, which may be altered only by the same formal action of the District Board.

Assigned fund balances are amounts constrained by the District Boards intent to be used for a specific purpose, but are neither restricted nor committed.

Unassigned fund balances represent residual amounts that have not been restricted, committed, or assigned. This includes the residual general fund balance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements

In June 2012, GASB issued Statement 68, Accounting and Financial Reporting for Pensions and Statement 67, Financial Reporting for Pension Plans. In December 2015, GASB issued Statement 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans. Under these new regulations employers are required to record the net pension liability, pension expense, and deferred outflows/deferred inflows of resources related to pensions in their financial statements as part of their financial position.

In June 2011, the GASB issued Statement 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, which changed the structure of a government balance sheet.

<u>Deferred Outflow</u> – represents the consumption of a government's net assets that is applicable to a future period.

<u>Deferred Inflow</u> – represents the acquisition of net assets that is applicable to a future reporting period.

In March 2012, GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which amends the classification of certain items to be included as deferred inflows and outflows.

Basis of Accounting

The accounting and financial reporting applied to a fund is determined by its measurement focus. All governmental funds and expendable trusts funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included in the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

The modified accrual basis of accounting is used by governmental fund types, expendable trust funds, and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The District considers property taxes within governmental funds as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

The accrual basis of accounting is utilized by proprietary fund types, pension trust funds and nonexpendable trust funds. Under this method revenues are record when earned and expenses are recorded at the time liabilities are incurred. Water and sewer services charges are recognized as monthly utility bills are prepared.

Budgets

A budget is adopted for the general fund on a basis consistent with generally accepted accounting principles. All annual appropriations lapse at fiscal year-end. The board has given the District Manager authority to make subsequent budget adjustments. It is this final adjusted budget which is reported in these financial statements.

Cash and Cash Equivalents

Cash includes amounts in demand deposits, as well as short-term investments with a maturity date within three months of the date acquired by the District.

Short-term Interfund Receivables/Payables

During the course of operations, transactions occur between individual funds for goods or services rendered. These receivables and payables are classified as "Due from Other Funds" or "Due to Other Funds" on the balance sheet. Short-term interfund loans are reported as "Cash Advances to/from Other Funds."

Supplies Inventory

Materials and supplies inventory is priced at cost using the first-in, first-out method.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GAAP Election

Proprietary funds have selected consistently not to follow Financial Accounting Standards Board pronouncements issued subsequent to November 30, 1989 as permitted under Government Accounting Standards Board Statement No. 20.

Compensated Absences

The District allows employees to accumulate vacation time limited to one year, which is paid in cash upon termination. Sick leave may be accumulated without limit. Unused sick leave is credited to PERS upon retirement. The liability for compensated absences is accrued during the fiscal period in which it is earned.

Fixed Assets

All fixed assets are valued at historical cost. Donated assets are valued at their estimated fair market value on the date received. Repairs and maintenance are recorded as expenses; renewals and betterments are capitalized. Depreciation is taken on these assets using the straight-line method over their useful lives, ranging from 10 to 40 years.

Building and equipment of the enterprise funds are depreciated using the straightline method over useful lives ranging over 20 to 100 years for buildings and improvements, 15 to 50 years for pipe, poles and appurtenances and 3 to 15 years for equipment.

Property Taxes and Assessments

Secured property taxes are levied March 1 on all secured real property and are due and payable November 1 and February 1 of the following fiscal year. Unsecured property taxes are payable in one installment on or before August 31. The County of Humboldt is responsible for assessing, collecting and distributing property taxes and assessments in accordance with California statutory law.

A tax rate of \$1.00 per \$100.00 of assessed valuation is levied on all property within the County. The District's share of the taxes collected is determined by state law. The County distributes to the District its full share of the taxes whether actually collected or not. All delinquent taxes along with interest and penalties belong to the County.

Assessments are levied against property located within the District and consist of water standby fees assessed at \$8.00 per parcel for each uninhabited parcel for which service could be made available. A special utility tax is \$80.00 per parcel for every parcel within the District.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-term Obligations

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable, available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

Fund Equity

Contributed capital is recorded in proprietary funds that have received capital contributions from developers, customers, and other sources. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use.

Debt Discounts/Issuance Costs

In governmental fund types, debt discounts and issuance costs are recognized in the current period. Debt discounts and issuance costs for proprietary fund types are deferred and amortized over the term of the debt using the bonds-outstanding method, which approximates the effective interest method. Debt discounts are presented as a reduction of the face amount of debt payable, whereas issuance costs are recorded as deferred charges and are presented in the financial statements under "Other Assets".

Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures.

NOTE 2- PROPERTY TAX REVENUES

During the 1996/97 fiscal year, the County apportioned the District its share of the general tax rate under the "Teeter Plan". Under this plan, the full amount of the levy is paid to the District, whether collected or not. All interest and penalties for late payment of taxes are retained by the County.

NOTE 3 - FIXED ASSETS

The following is a summary of the changes in the general fund fixed assets during the fiscal year.

	Ju	ne 30, 2016	Additions	Reti	rements	June 30, 2017
Land and Land Rights	\$	145,971	\$133,369	\$	=	\$279,340

	\$	3,716,660	\$372,557	\$		\$4,089,217

The following is a summary of proprietary fund type (enterprise funds) fixed assets:

Electrical System	7,782,609
Land	120,973
Allowance for Depreciation	(4,755,573)
	3,148,009
Water System	7,461,714
Water System - CIP	95,906
Allowance for Depreciation	(3,562,208)
	3,995,412
Sewer System	8,455,332
Allowance for Depreciation	(5,298,149)
	3,157,183
Total	10,300,604

NOTE 5 - CASH AND CASH EQUIVALENTS

The District's temporary investments are all deposits in federally insured banks or in investment pools maintained by the Humboldt County Treasurer and the State of California. The carrying amount is the account balance which includes interest. At times such investments may be in excess of the Federal Deposit Insurance corporation (FDIC) insurance limits of \$250,000.

The following summarizes cash and cash equivalents at June 30, 2017:

Governmental Funds:

Insured by FDIC	\$ 21,011
Imprest Cash	-
	\$ 21,011
Proprietary Funds:	
Pooled with County	\$ 2,669,213
Pooled with State	372,409
Insured by FDIC	336,356
Uninsured	180,430
Imprest Cash	2,168
	\$3,560,576
Total	\$3,581,587

NOTE 5 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial and risk pool coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this coverage in any of the past three years.

NOTE 6 - RETIREMENT PLAN

Plan Description: The District's defined benefit pension plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Plan is part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions as well as other requirements is established by State statutes within the Public Employees' Retirement Law. The District selects optional benefits provisions from the benefit menu by contract with CalPERS and adopts those benefits through Board action. CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

Funding Policy: Active plan members who were employed prior to June 30, 2013, are required to contribute 7% of their annual covered salary. Other active members are required to contribute 6.25%. The District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution is an actuarially determined rate which will vary depending on the updated actuarial report. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS. The District's contributions to CalPERS for the fiscal years ended June 30, 2017 and 2016 were \$53,268 and \$44,589, respectively, and equal the total required contributions for each year. Beginning in FY 2015-2016, CalPERS began collecting additional employer contributions toward the unfunded liability. Payments made against the unfunded liability during the years ended June 30, 2017 and 2016 were \$51,286 and \$44,664, respectively. As of June 30, 2017 and 2016, Resort Improvement District No 1 reported a net pension liability in the amount of \$885,008 and \$667,367, respectively. The net pension liability for the Plan is measured as the proportionate share of the net pension liability. The total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014 rolled forward to June 30, 2016 and June 30, 2015 measurement dates, using standard update procedures.

NOTE 6 - RETIREMENT PLAN (Continued)

Hire Date	Prior to Jan 1,	Jan 1, 2011 through Dec 31, 2012	On or after Jan 1, 2013

	Ou R	Outflows of Resources \$ 104,554 2,459	Outflows of Resources Resources \$ 104,554 \$ \$ 2,459 \$ \$ \$ - 20,443 \$ 157,073	

\$104,554 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension swill be recognized as pension expense over 3.8 to 5 years.

Notes to the Financial Statements June 30, 2017

NOTE 6 - RETIREMENT PLAN (Continued)

Actuarial Assumptions – For the measurement period ended June 30, 2016 (the measurement date), the total pension liability for the Plan was determined by rolling forward the June 30, 2014 total pension liability. The June 30, 2017 and June 30, 2016 total pension liabilities for the Plan were based on the following actuarial assumptions:

Actuarial Cost Method Actuarial Assumptions:	Entry-age normal cost method
Discount Rate	7.65%
Inflation	2.75%
Payroll Growth	3.0%
Projected Salary Increase	Varies by entry age and service
Investment Rate of Return	7.5% (a)
Mortality	Derived using CalPERS's membership data for all funds

(a) - Net of pension plan investment expense, including inflation

Changes of Assumptions – The discount rate was changed from 7.5 % (net of administrative costs) in 2015 to 7.65% to correct for an adjustment to exclude administrative costs in 2016.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what HTA's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Discount Rate less 1% 6.65%	Current Discount 7.65%	Discount Rate plus 1% 8.65%
Net pension liability	\$1,418,437	\$885,008	\$444,156

Long-term expected rate of return -

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

NOTE 6 - RETIREMENT PLAN (Continued)

In determining the long-term expected rate of return, CalPERS staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 (a)	Real Return Years 11+ (b)
Global Equity	51%	5.25%	5.71%
Global Fixed Income	20%	0.99%	2.43%
Inflation Sensitive	6%	0.45%	3.36%
Private Equity	10%	6.83%	6.95%
Real Estate	10%	4.50%	5.13%
Infrastructure and Forestland	2%	4.50%	5.09%
Liquidity	1%	-0.55%	-1.05%
-	100%		

⁽a) - An expected inflation of 2.5% used for this period

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports available on CalPERS' website under Forms and Publications.

At June 30, 2017, the District reported no amount payable for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2017.

⁽b) - An expected inflation of 3.0% used for this period

RESORT IMPROVEMENT DISTRICT NO. 1 Notes to the Financial Statements June 30, 2017

NOTE 7 - BUDGETS

The District adopts an annual budget for the General Fund after conducting public hearings. Planning budgets are prepared for the enterprise funds. No budget comparison has been presented in these financial statements for the enterprise funds since the demand for goods and services primarily determines the revenue available and the expenses incurred.

NOTE 8 - SUBSEQUENT EVENTS

Management has evaluated all known events that have occurred after June 30, 2017, and through January 31, 2018, the date when this financial statement was available to be issued, for inclusion in the financial statements and footnotes.

The General Manager of the District submitted his resignation effective December 22, 2017.

NOTE 9 - HUMAN RESOURCES RECONCILIATION

Total Labor Expenses (Wages, Benefits, Other)

The District allocates total human resources expense, including payroll and wages, payroll taxes, worker's comp, health insurance and all other related benefits to numerous funds and accounts. A reconciliation of these amounts is provided below for the year ended June 30, 2017:

\$

1,291,611

RESORT IMPROVEMENT DISTRICT NO. 1 SCHEDULE OF CONTRIBUTIONS FOR THE LAST TEN YEARS * CALIFORNIA PUBLIC EMPLOYEES RETIREMENT SYSTEM

June 30, 2017

	June 30, 2017		June 30, 2016		June 30, 2015	
Employer Contributions	\$	53,268	\$	44,589	\$ 64,178	
Covered-employee payroll	\$	910,209	\$	792,444	\$ 851,032	r.
Contributions as a percentage of covered- employee payroll		5.85%		5.63%	7.54%	6
NOTES TO SCHEDULE: Actuarial valuation date		6/30/2014		6/30/2013	6/30/2012	2

Methods and assumptions used to determine contribution rates:

Actuarial funding method

Entry age normal cost

Amortization method

Level percentage of payroll, closed

Remaining amortization period

20 years (a)

Asset valuation method

Smoothed value

Inflation

2.75%

Salary increases

Varies by entry age and service

Investment rate of return

7.65%, net of pension plan investment

expense

Retirement age

60 years

Mortality

CalPERS Mortality Experience Study

(a) - Actuarial Policy ACT-96-0SE specifies that all changes in liability due to plan amendments, changes in actuarial assumptions, or changes in actuarial methodology are amortized separately over a 20-year period. In addition, all gains or losses are tracked and the net unamortized gain or loss is amortized as a rolling 30-year amortization with the exception of gains and losses in fiscal years 2008-09, 2009-10 and 2010-11 in which each years' gains or losses will be isolated and amortized over fixed and declining 30-year periods (as opposed to the current rolling 30-year amortization). Also, if a plan's accrued liability exceeds the actuarial value of assets, the annual contribution with respect to the total unfunded liability may not be less than the amount produced by a 30-year amortization of the unfunded liability. Finally, all plans are subject to a minimum employer contribution rate equal to the employer normal cost plus a 30-year amortization of surplus, if any.

^{* -} Fiscal year 2015 was the first year of implementation

RESORT IMPROVEMENT DISTRICT NO. 1 <u>SCHEDULE OF PROPORTIONATE SHARE OF THE NET PENSION LIABILITY FOR THE LAST TEN YEARS * - CALIFORNIA PUBLIC EMPLOYEES RETIREMENT SYSTEM</u> June 30, 2017

	June 30, 2017			June 30, 2016		June 30, 2015
Plan's proportion of the net pension liability		0.027520%		0.024326%		0.031083%
Plan's proportionate share of the net pension liability	\$	885,008	\$	667,367	\$	768,202
Plan's covered-employee payroll	\$	910,209	\$	792,444	\$	851,032
Plan's proportionate share of the net pension liability as percentage of covered-employee payroll		97.23%		84.22%		90.27%
CalPERS State-wide fiduciary net position	\$	10,923,476,287	\$ 1	0,896,039,068	\$	10,639,461,174
CalPERS State-wide total pension liability	\$	14,397,353,530	\$ 1	3,639,503,084	\$	13,110,948,452
Plan's proportionate share of the fiduciary net position as a percentage of the total pension liability		77.66%		82.30%		83.60%

NOTES TO SCHEDULE:

Benefit changes: There were no changes to benefit terms.

Changes in assumptions: The discount rate was changed from 7.50 percent (net of administrative costs to 7.65 percent to correct for an adjustment to exclude administrative costs.

^{* -} Fiscal year 2015 was the first year of implementation
