

RMT Corporation Gages....

Project: Water Pump Attribute Gage

Notes: Gage simulates bolt pattern and mating part clearances. Precision ground cavity gages straightness of blades. Should a blade be out of tolerance, the blade drops into 1 of 3 grooves to stop any rotation showing the assembly is out of tolerance.

Project: Steering Column Bracket Attribute Gage

Notes: Gage used to check hole locations on a steering column bracket.

Project: Oil Pump Housing Attribute Gage

Notes: Gage used to check hole locations on oil pump housing. 27 precision ground gage step pins with holder. Gage pins ground to within .0002in/.005mm fit and .0005in/.013mm location.

Project: Design and Build

Delivery: 5 weeks

Notes: All Stainless Construction, Used in Helium Test Chamber

Project: Variable Length Gage

Notes: Gage used to check Part lengths using a Digital Indicator with Set Master.
