

Juice Newton Online Fanclub Spring 1999 Newsletter

Dear Fans,

I hope everyone had a wonderful holiday season and have had a great winter! The sun is shining and the birds are singing. So, let's now look forward to spring. What better way to start spring off then with news about Juice?

Casino Change

The Barona Native American Casino is located in San Diego California. The past three years has seen Kenny Rogers doing commercials endorsing the casino and singing their jingles. Recently, Kenny was dropped as the spokesperson. It was an amicable decision. The Barona Casino has chosen Juice Newton for the new ad campaign! Juice will be singing the jingles on the television commercials and radio ads. The casino wanted to go with a warm filled female voice. I certainly think they made the right choice. I feel extremely fortunate, I live in San Diego and have seen the commercials with Juice singing the "My Barona" jingle.

Where Is That CD?

Recently, I have had numerous emails about the "Can't Wait All Night" CD. It was available again at one point last year. We must remember that when a record company decides to take it out of print again, it is beyond anyone's control. The best solution I can offer those of you who are or may be looking for it, is to write me and ask to be posted on the trading section of the Fanclub's web site. This has worked out great for other fans! Should anyone know of a place where this CD may be purchased, please let me know.

I have also received numerous requests for "Quiet Lies" on CD. Please note, this is not yet available. We can certainly hope it will be released on CD as the album "Juice" was. As soon as I know something you can be sure, I will have it at the web site.

“The Trouble With Angels”

It was one year ago this month that the CD “The Trouble With Angels” hit the store shelves. The album has done well. Although, the songs did not get airtime, it’s still a wonderful album. This CD can be purchased through various sites at the FANCLUB web site and retail stores.

BIRTHDAY CONTEST WINNERS!!

I have received great response to the birthday contest! In the Winter Newsletter, I had mentioned that a contest was coming to the FANCLUB and to check the web site for details. A lot of you did! I want to thank every participant for joining in.

We had three winners. We had first and second and third place winners. All three entries are posted at the web site. However, here in this newsletter, I wanted to share with you the first prize entry. The contest was to tell me what was your favorite Juice Newton song and why. Fanclub member Dale C. won with this...

First Prize Composition By Dale

"If There Could Be" (Well Kept Secret) 1979

The first time I listened to the album and heard that song I had just starting dating a friend that I had known for a while. Her name was Jana. I had been working with her and found out that we had graduated from high school the same year, had went to rival high schools and had been to several school functions but had never met one another. Juice was coming to town and I believe that it was at the Uptown Theater. I had gone to the concert with another girl and ran into Jana who was there with her sister. I couldn't believe that Jana was a Juice freak. I sort of lost my head. I dumped the girl I was with. Jana let her sister cut out and we took off. We ended up at my home and I broke out the Juice albums and we listened to all of them. When "If There Could Be" came on we both looked at one another and knew that there could never be non one else for either of us. We spent many happy years together. She has since past on to the Good Lord. I know that she is in heaven listening to Juice all the time and looking over me, still living by my side in my heart.

Dale has won a BACKSTAGE PASS to meet Juice when she is in his area!! Congratulations! Also, congratulations to the Second Place winner Pete and Third Place winner Tim!! All three of you are super fans!

Looking For Feedback

I have received some mail asking how to get in touch with other Juice fans. This would be an email pen-pal list. What I need to know from you fans is what you think of the idea and would you like it yes or no.

Trading

Don't forget that is there is a CD or a Juice item you want but can't find, all you need to do is email me the item description and I will post it at JUICE TRADING at the Fanclub web site. Several fans have gotten what they wanted there.

That's all for now. Remember, you may email me anytime about anything at Juicefans@aol.com. The Fanclub address is <http://members.aol.com/juicefans/fanclub.html>.

Until Next Time All The Best,

Paul Fowler
President of the Juice Newton Online Fanclub
