Milton Smith
Reliable Clinical Experts
experts@reliableclinicaexperts.com

Dear Milton,

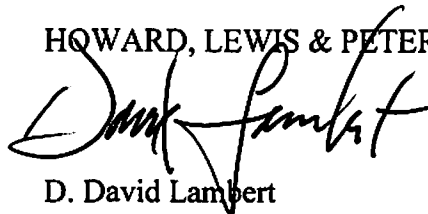

It has been a pleasure to work with Reliable Clinical Experts over the past years. You have connected us with exceptionally well qualified physicians and other experts who are articulate and present their opinions in a convincing manner. When there has been a time crunch, you have expedited the work and have helped us meet all of our deadlines. When I have asked for an expert with special qualifications that may not have been in your known group of consulting experts, you have found that expert. For example, I recently needed an oncology physician and specified that I wanted someone at Sloan-Kettering, you found that person.

In addition, you are a great sounding board to screen the case in the first instance and to determine the various types of experts who may be required and where to focus first in the evaluation of the case. Your assistance has been of great benefit to my practice.

I would recommend you to any attorney seeking expert assistance with a medical-legal case.

Sincerely,

HOWARD, LEWIS & PETERSEN, P.C.

D. David Lambert
