

Using Cosmobiology and the 8th Harmonic to study Stock Market Cycles

W.D. Gann's favorite harmonic for studying Time and Price cycles was the 8th Harmonic. Learn why the 90-degree dial and advanced Cosmobiology techniques and tools lead you to the core structure of understanding planetary cycles.

Did you know that legendary trader W.D. Gann was an astrologer?

Newspaper articles in the 1920's called W.D. Gann a prophet and a mathematical seer. "Mr Gann has made noteworthy forecasts of the markets which proved to be true in the course of time. His calculations are based on Letters, Numbers and Astrology."ⁱ

"Mr Gann gets calls every day from men and women prominent in all walks of life asking him to cast their horoscope. He tells politicians whether or not they will be elected and solves other problems for clergymen, bankers and statesmen."ⁱⁱ

In 1914, he was a member of The Astrological Society, Inc N.Y. with Sepharial, George Llewellyn, Frank C Higgins and had associations with Edward Johndro, Luther Jensen and CC Zain. Gann also published a list of recommended books he had for sale - topics included Numerology, Astrology, the Tarot and other esoteric titles such as the Oracles of Nostradamus. In his coded novel [The Tunnel Thru the Air](#) (TTTA) he wrote about mediums, clairvoyants and even Atlantis! Sir Arthur Conan Doyle, author of *Sherlock Holmes* and *The Lost World*, is also mentioned, as he was a prominent researcher of Spiritualism in the 1920's, traveling the world investigating reports of supernatural spirit phenomena.

From TTTA,

" I believe in the stars, I believe in Astrology and I have figured out my own destiny. The Bible makes it plain that the stars do rule. 147th Psalm, 4th Verse:

"He tellest the number of stars, he callest them all by name.

I believe the wise men of the East, the astrologists before the birth of Jesus Christ, knew where and when he would be born by the study of the stars".ⁱⁱⁱ

It has been said that to truly understand the secrets and symbolism in TTTA you need not only to be an astrologer but also a high degree Mason like Gann. In this regard, my research reveals that Masonic rituals stem from ancient Egypt and the Temples of Initiation. We know that Pythagoras was initiated into the Egyptian

mysteries and taught the secrets by the High Priests. Gann made trips to both Egypt and India in search of ancient texts where he found the Square of Nine, an ancient system of both Time and Number also referred to as The Pythagorean Cube and the foundation of ancient Numerology.

When referring to the Square of Nine, Gann wrote, "The angles 90, 180, 270 and 360 form the first important cross, known as the Cardinal Cross. The angles of 45, 135, 225 and 315 form the next important cross, called the fixed cross. These angles are very important for the measurements of time, space and volume."^{iv} All these angles are known as Gann seasonal dates and mid- seasons in trading and divide the circle by the 8th harmonic.

The 90 degree dial incorporates both the 4th and 8th harmonics, therefore works like magic for Gann analysis. The four cardinal points all overlap at the zero point on the dial and the 15 degrees of the fixed cross align directly across the dial. Studying planetary cycles according to these harmonics brings another dimension to your analysis - revealing sensitive degrees that often are overlooked by traditional methods. Gain unique insights on how to use the 8th harmonic for Stock Market Analysis.
