2024 Theme: "Draw near to God." James 4

Words of Encouragement from Dr. C. Yvette Brock, Pastor

Dearly Beloved in Christ Jesus,

Faith in God will give us a closer spiritual walk with Him. It is impossible to walk with God without agreeing with Him. The agreement is that He is spirit and truth, and those who come to Him must come to Him in spirit and in truth. His word is His bond with us. He promises that if we stay under the shadow of His charge over us. Some may question

When we stay close with God in spirit, we are under the shadow of His wings. Therefore, though

we may physically and mentally suffer terribly and horribly, our souls, hearts, spirits, and minds can be at peace because we believe that God has a good plan for us. During terrible attacks, whether war, violence, sickness, poverty, death, hunger, thirst, discrimination, rejections, or other suffering, of all kinds, the spiritual walk with God helps and strengthens us spiritually. While the strong winds of uncertain times blow, and while torrential rains fall, we are not alone. Jesus Christ, our Savior, upholds us, throughout our suffering, and we can rely on His promise of eternal life, even if we perish in our current temporal and physical bodies. Be encouraged, even during the hard times because He will give you peace. That is why the faith community differs from the unfaithful: we rest in God's promise that trouble does not last always. Our God buffers and comforts us with the hope of victory in the end. Our close walk with Him allows us, during our trials, to see His work of rescue, deliverance, provisions, healing, comfort and victory. He reveals to us that we are not alone when thieves break through and steal and when death or sickness comes. He can't leave you - He can't lie or fail- because He is a promise keeper, who unlike us, does not lie, and therefore, must keep His promise of His continued presence with us. Draw nigh to Him and be assured, He will always be with you. Always.

From the Editor:

The beach is the life during the summer in my town. I believe this is especially true this year because of the record heat. I only suggest to be aware of taking in too much sun. Did you know that even under cloud cover or in the shadows of trees and buildings, the body is still exposed to some heat rays from the sun? Enjoy and be cautious!
