

NATIONWIDE MANUFACTURING & DISTRIBUTION

STRUCTURAL DECK

INDUSTRIAL HEAVY DUTY SOLUTIONS TO DECK SAFETY

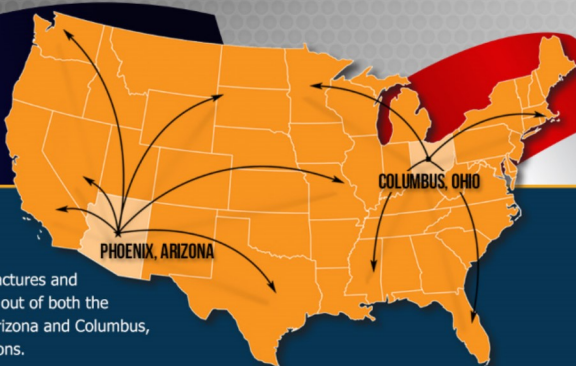

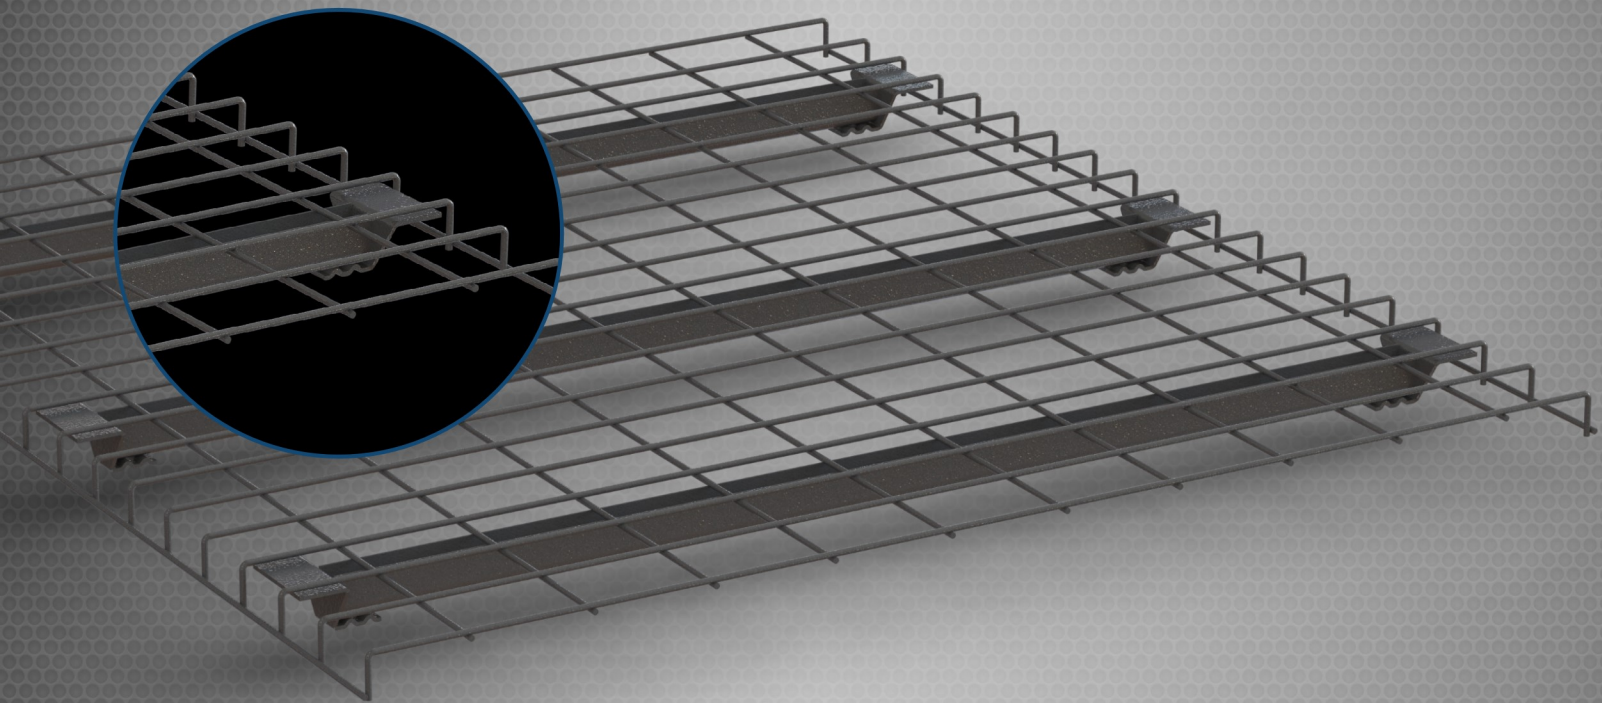

PATENT PENDING

ITC STRUCTURAL DECK

ITC's Structural Deck offers a superior design to any other wire deck designed for structural racking systems. ITC's unique structural channel allows for the deck to hold more weight than a traditional flared channel. The ITC structural deck design will hold a uniform load independent of the support system and will also be R-Mark certified.

FINISH:

Powder Coat Grey

ITC Manufactures and Distributes out of both the Phoenix, Arizona and Columbus, Ohio locations.
