

The Full Spectra

News, Views and Other Interesting Information from Spectra Builders, Inc.

Spring 2010

Welcome, Time Warner Cable

Spectra Builders is pleased to add Time Warner Cable to our list of distinguished clients. Time Warner Cable is a provider of Digital Cable, High-Speed Online, Digital Phone and Road Runner Mobile Service. The company serves more than 400 cities and towns in the Carolinas and is available in 37 states with a variety of package deals from which to choose.

Spectra was asked to do a highly time-sensitive project for Time Warner over Christmas and New Years,

which our team happily agreed to. Paul Fox, with Cline Design Associates, PA, handled the drawings. The job involved renovating existing offices into a locker room facility and adding a general office and meeting rooms. Work went smoothly and was completed on time.

Upon completion, Spectra Builders received a letter from Holly Dalesandro stating, "It was great working with the Spectra team. We have only heard good things and it has been proven. We look forward to working with you on future (less time-sensitive) jobs." We agree, and hope to have the opportunity to work with Time Warner Cable again soon.

Time Warner Cable's new offices.

With our skilled staff and outstanding subcontractors, it's always Spectra's goal to give our clients a superb finished product. Please call us if you're thinking about a project, be it large or small. We'll be glad to help you with everything from planning and design to the ribbon-cutting.

Spectra Moving Into South Carolina

Spectra Builders is now licensed in the state of South Carolina. If your company or someone you know is planning a project there, please give us a call. And keep an eye on our website (www.spectrabuilders.com) to learn about the other ways we are expanding to better serve you.

Planning A Project? Let us Help!

We look forward to hearing from you and working with you on your next project. Contact Tony Smith at 919-269-2085, ext. 13, or email: tonysmith@spectrabuilders.com.

Want To Renovate? Consider This...

- New building codes you may be required to meet when renovating your space.
- Selecting a general contractor that understands that time is money and any downtime will cost your company in lost revenue.
- Selecting materials that will hold up to commercial use.
- Choosing materials that are readily available to speed the construction schedule and lessen any business downtime.
- Selecting materials that produce little or no chemical odor so that your employees can continue to work without disruption and avoid any negative health effects.
- Choosing a general contractor with experience in working in occupied areas; choosing one that knows how to manage dust control, noise control, moving and relocating furniture, and phasing the job so that your normal operations can continue during construction.

We're doing our part. *This newsletter is printed on environmentally-friendly paper—50% recycled, using 25% post-consumer waste, and is composed of a mixture of fibers from certified forests, post-consumer recycling processes and fibers from other controlled sources.*
