If the student withdraws or is dismissed from the program before the period allowed for cancellation, which is the first class session, or the seventh day after enrollment, whichever is later, the school will refund all money paid minus registration fee of \$100.00. If a student withdraws after the cancellation period, then the student is obligated to pay only for the portion of the program completed until the last date of attendance. The last day of attendance is considered to be the very last day when the student was physically present at school, and therefore marked "P" or "T" in the corresponding attendance roster. If the student has paid more than the amount that he/she

owes for the attended program, then the refund will be made within 30 days of withdrawal. If the amount that the student is obliged to pay to the school is more than the amount that he/she has already paid, then the student will need to make payment arrangements to pay the balance.

**Withdrawal/Dismissal Date** is the date the student gives a notice of withdrawal to the school or the date the school dismisses the student.

**Drop:**

In the event, a student does not obtain approved leave of absence (LOA) and is not attending the school classes for 21 consecutive calendar days excluding the school approved scheduled breaks or holidays, he/she will be considered as dropped. A status change and refund calculation will be performed. The last day of attendance is considered to be the very last day when the student was physically present at school, and therefore marked "P" or "T" in the corresponding attendance roster.

**Drop Date** would be 21 days after the last day of the student class attendance
