

WOOD FLOOR TAPE WALL PLANKS & TILE TAPE

- **AGGRESSIVE**
- **STRONG**
- **DOUBLE-SIDED**
- **QUICK INSTALL**

Double-sided tape for starter rows, trims, moldings, replacement boards, wood & vinyl decorative wall planks, backsplash tile installations, and MORE.

Wood / Tile tape is fast and easy to use.

Holds first row in place during wood floor plank installation.

Holds wood/vinyl planks on walls for decorative wall designs

Holds backsplash tiles on walls (not for wet locations, such as showers).

- Substrate must be clean, dry, flat and free of dust and debris.
- For floor and wall planks run the tape with the length of the board. If the board is wider than 4 inches add subsequent rows.
- For backsplash tiles, full coverage on the wall is necessary for best bond
- Remove protective liner.
- Place planks or tiles gently into place with no downward pressure.
- Once plank or tile is in final placement, apply strong downward pressure

Due to aggressive bond, incorrect placement will be difficult to remove without damage to floors or walls.

FLOORTAPE

2 inches x 40 feet (50.8mm x 12.19m)
