Application

Direction of Use

Important: Keep product dry until applied. When using this product and other planting products, use garden gloves. Earth-Care Green 8-2-3 should be applied when temperatures are between 40 F and 85 F. Only apply to the top 2 inches of soil. Spread 1-2lbs of Earth-Care Green 8-2-3 per 100 square ft. of the garden area prior to or same day as planting. In addition, cover the same area with high-quality compost. After planting, fertilize with Earth-Care Green 8-2-3 every 30 days at a rate of 1/2 lb. every 100 square ft.

How Would a Turf Grass Use Earth-Care Green 8-2-3 to Maintain

Earth-Care Green 8-2-3 is an organic fertilizer used as topdressing for a well-maintained lawn with turf grass. It is used to protect developing plants from extreme dryness, be it during the summer or winter season. To ensure the effectiveness of this fertilizer, this should match the composition of the soil profile.

Recommended Application for Plants

Plants need various important nutrients to grow successfully. Appropriate application of organic fertilizer and the soil composition are also factors in this process. With Earth-Care Green 8-2-3, you can be assured of essential nutrients for plant growth.

Lawn

Spread 40 lbs. of Earth-Care Happy Green 8-2-3 per 2000 square ft. water for approximately 5-10 min to wet the fertilizer, let sit overnight and mow grass with a mulching mower or standard mower and do not pick up clippings. Continue application of Earth-Care Green 8-2-3 fertilizer every 6 weeks at a rate of 5 lbs. per 1000 square ft. and continue applications as scheduled and rates as advised.

Around Your Home

Fertilize trees, ornamental shrubs, roses, flowers, fruit trees, and vegetables at a rate of 1-2 lb of Earth-Care Green 8-2-3. Fertilize to a depth of 2-4 inches per 100 square ft. from stalk or trunk of the plant to the drip line, every six weeks at rates as advised. Houseplants for every 1/2 square ft. of pot area. Fertilize with 1 tablespoon of Earth-Care Green 8-2-3 fertilizer, apply only to the surface of the pot and gently till into of the surface of the soil. Continue applications every six weeks.

Caution:

Maybe harmful if swallowed.
DO NOT ingest. Keep away from children and pets. Avoid inhalation. Wash thoroughly after handling. To prevent staining, care in application near porous surfaces is recommended. Hose down porous areas after use.

Storage:

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly re-seal after opening to preserve shelf life. Store between 35 and 80 degrees F. Do not freeze.
