

All material is foam board unless otherwise specified. Readi-Board as sold by Dollar Tree is highly recommended due to its lighter weight - dollartree.com

NOTE: See the accompanying assembly guide to see how the parts shown on the plan fit together

LO 'N SLO	
Wing Span - 60" - Area 715 square inches	
Power - 200 watt brushless outrunner	
Battery - 2 cell 2000 mah Lipo	
Flying weight - 24 ounces	
Designed by William Welle	
Drawn by Paul Bradley 03/2014 Sheet 1 of 2	

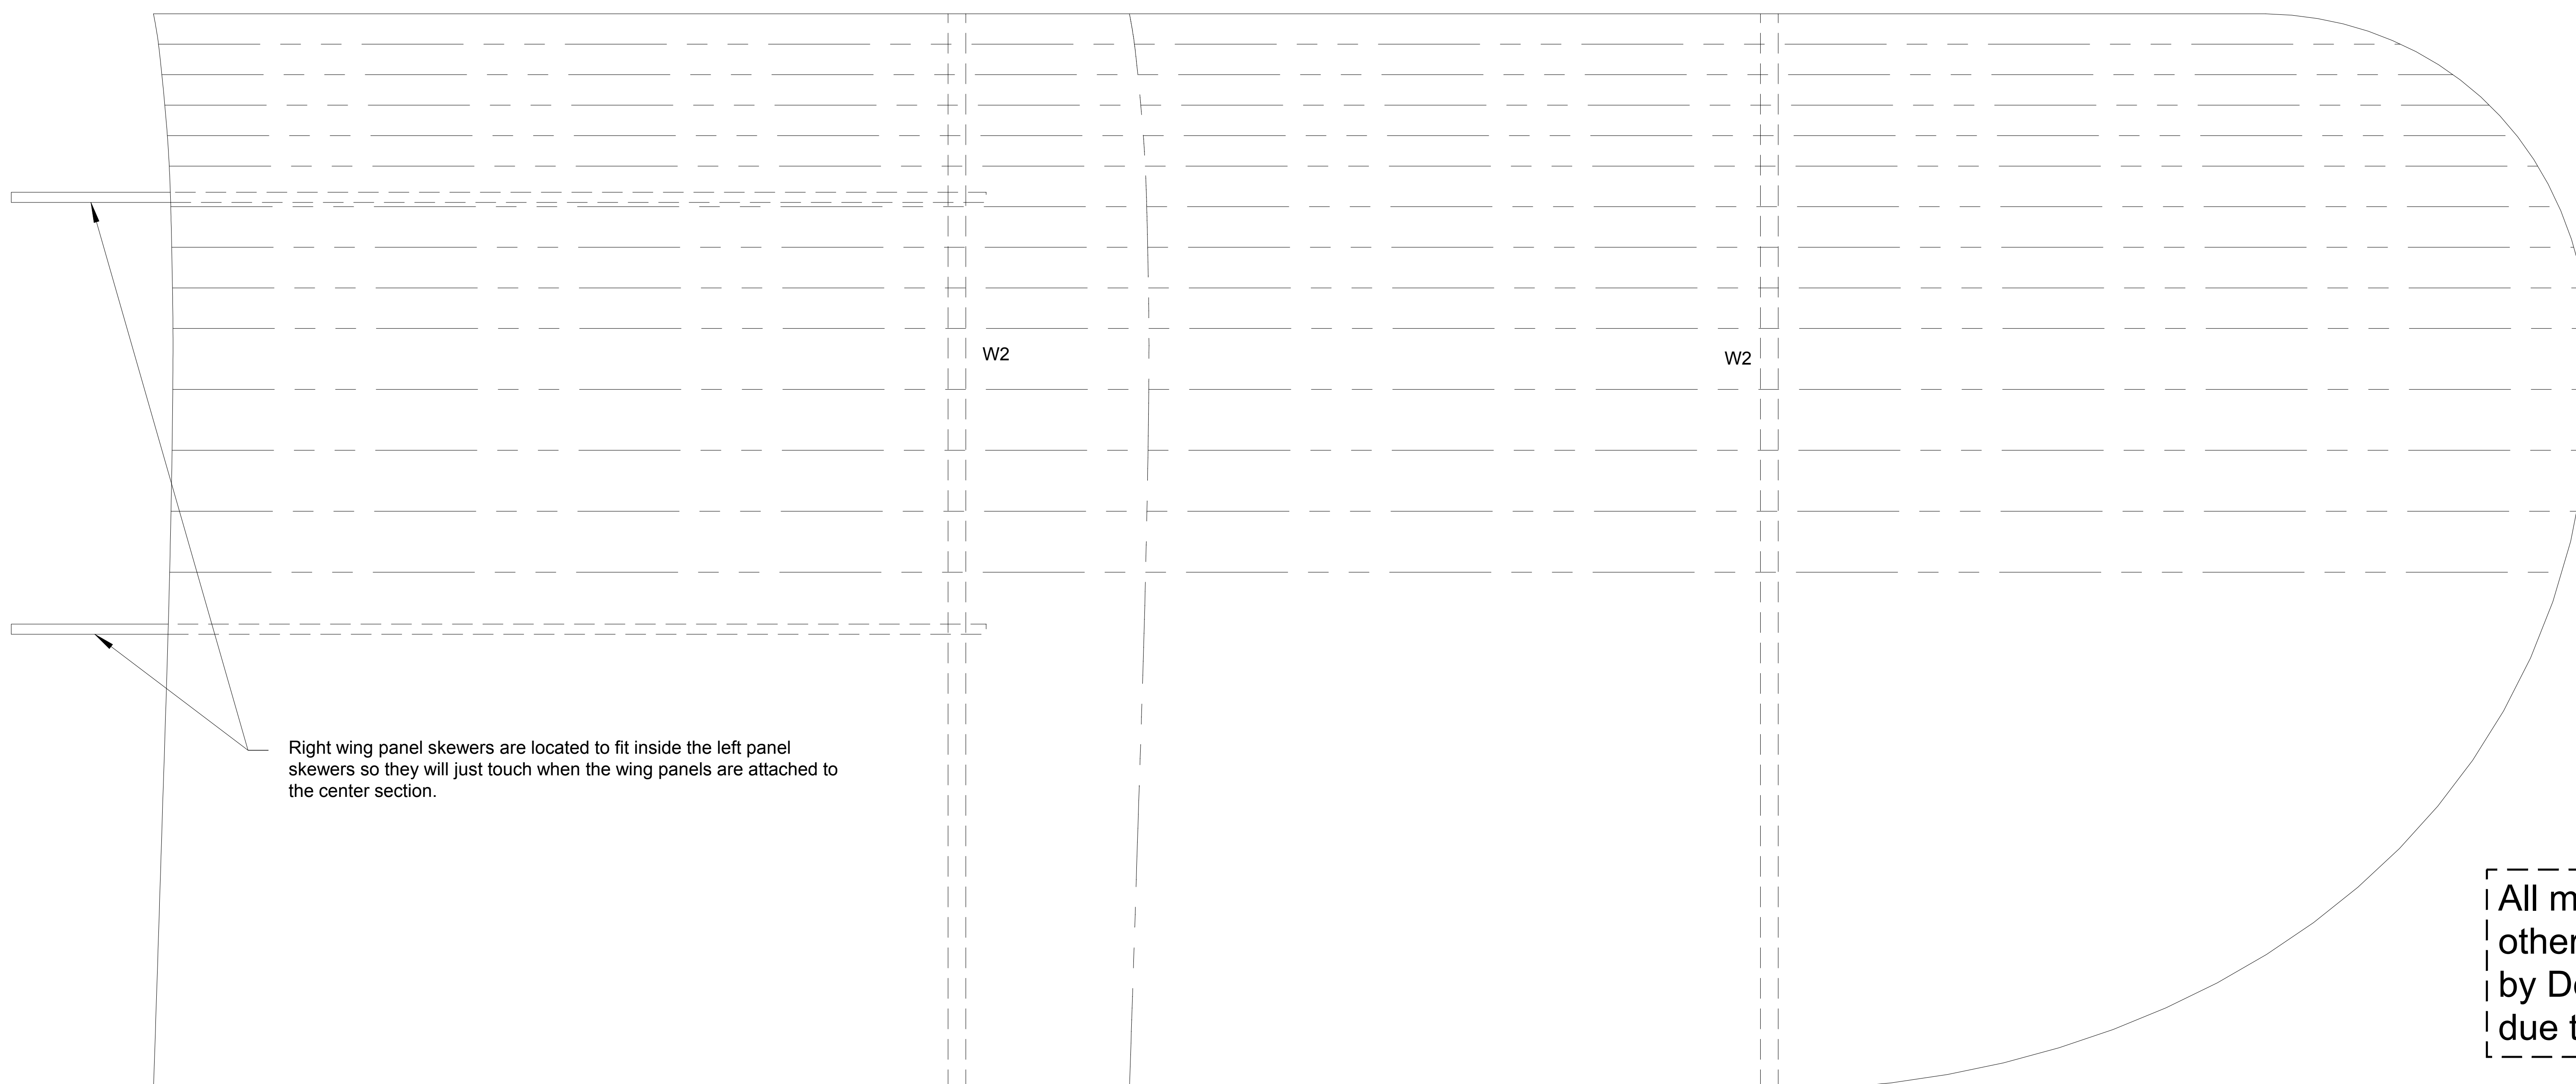

Crease the bottom surface of each wing panel along these reference lines. This helps the panels conform to the airfoil shape.

Bamboo skewers trimmed to 12" in length

For a sporty performance version of the model, make each wing panel 18" rather than 30" in length

Hinge is 1" wide clear packing tape on top side

3/16" Diameter aluminum tubing elevator joiner

Right wing panel skewers are located to fit inside the left panel skewers so they will just touch when the wing panels are attached to the center section.

Stab/Elevator cross section
