Do you know what these creatures are called? It is a Beaver! They are the largest rodents in the North America continent. Beavers build their own homes out of wood, plants and rocks on the stream of the water in rivers and ponds. Beavers can swim and float on their backs for 15 minutes. They love to eat plant-based foods. Let's see if we see any on our zoo field trip!

### Happy May!

We have two months of school left! Let's push through and finish the year strong! Please read this section carefully because we have important information about the upcoming field trip, registration for next year, and graduation/promotion!
