November Recap

We have had a exciting month here at LEAP!!! Our focus for this month was learning through hands on experience. Throughout the month, students enjoyed focusing on the engineering part of STEM by being exposed to practices that create a student lead learning environment. This allowed the kids to investigate and engineer solutions to real world problems. Students were challenged to design and model different types of architecture and structures that could either move or hold weighted materials. These challenges help to strengthen their imagination and understand concepts of logistics.

... December Happenings ...

- ★ We are looking forward to an exciting month as everyone is getting ready for the holidays! We will be working on building on our fundamentals and enhancing our speaking/writing skills by introducing more advanced ways of hands on learning. Students will also be exposed to different types of learning styles in order to understand that everyone learns differently and at their own pace.
- ★ If your child participates in Hip Hop dance classes based @ LEAP through the Coastal Performing Arts Academy, they will be having a Christmas show on December the 8th at South Effingham High School. Please contact them for more information.
- ★ We are excited to transition to Kangarootime in 2021! Please be sure to create your account and download the free Kangarootime app on your smartphone.

December Spotlight Students

Kyla Purvis, Etta Jones, Haven Trowell, Beckham Trowell

Fav LEAP Activity:

(K)Gym (E)Art Room (H) Art Room (B) Outside

Fav Color:

(K) Pink/Purple (E)Mint Green (H)Mint Green (B) Red

Favorite thing to eat during the holidays:

(K) Mac & Cheese (E) Cookies (H) Rice (B) Gingerbread Man

Future Career:

(K) Vet (E) Work at a Boutique (H) Teacher (B) NASA

Staff Spotlight

Ms. Jessica is our Arts and Crafts Teacher. She inspires the students to use their imagination to create beautiful art pieces. Her favorite activity to do with her groups is free art, because it allows the students to be creative in designing their masterpieces. Her words of encouragement, "Be your best self"
