

Atlanta Falcons Grounds Department, Flowery Branch, GA

To whom it may concern,

This letter pertains to the work Mr. Tony Strickland, CSFM and his company Athletic Construction, Inc., has completed at the Atlanta Falcons Practice Facility and my recommendation to any organization that needs sports facility construction and/or improvements.

I am proud to say that we selected Mr. Strickland to be the only field contractor to be provided unlimited access to work directly on our fields at this time. This is due to Mr. Strickland's knowledge and dedication to detail and quality. As a Grounds Supervisor it is imperative that I know my fields from the ground up. Throughout this project Mr. Strickland took the time to communicate with me every completed phase. When the project was completed I was confident that we had received a great job at our facility.

The expectations and high use of our athletic fields has increased greatly this year with summer camp now being held here. As a professional it is extremely important to have fields that are constructed properly. Mr. Strickland has built us a great field that supports the Atlanta Falcons expectations of playability, safety, and aesthetics.

I highly recommend Tony Strickland for any athletic field improvement and/or construction. Please feel free to contact me if I can provide any additional information (404) 606-3260.

Thank you,

A handwritten signature in blue ink that reads "Jim Hewitt".

Mr. Jim Hewitt
Grounds Supervisor
Atlanta Falcons Football Club
4400 Falcon Parkway
Flowery Branch, GA 30542

To Whom It May Concern:

Tony L. Strickland, CSFM and his company Athletic Construction is the best sports field construction company available as far as the Atlanta Silverbacks are concerned.

His ability, integrity and dependability have surpassed even our expectations. Athletic Construction was awarded the base drainage system work on our first, second and then the third Stadium field. Also the portable irrigation system that was installed on the Stadium Field is so fantastic we have had Tony replace half of fields 1 & 2 system and replaced it with the connectors for the portable system.

In addition, we have received visits from the Atlanta Falcon and from the Atlanta Braves. Each organization was very impressed with the field drainage as we have not lost any games or had any time delays due to poor drainage.

The expectations and high use of athletic fields has increased greatly over the past 3 years and it still has excellent drainage. As a professional it is extremely important to have fields that are constructed properly. Mr. Strickland has built us a great field that supports the Atlanta Silverbacks expectations of playability, safety, and aesthetics.

I highly recommend Tony Strickland for any athletic field improvement and/or construction. Please feel free to contact me if I can provide any additional information

Sincerely,

A handwritten signature in black ink that reads "Robert Holdaway". The signature is written in a cursive, flowing style.

Robert Holdaway
