Internal Control: Meeting Federal Requirements for Accountability

This mini-course will help participants in reducing the risk of waste, fraud, and mismanagement within their agency, and supporting accountability efforts. Participants will learn what controls are and why they are important; the requirements, standards, and guidance available for internal controls; the importance of risk management; and the eight steps in an internal control process. In addition, the course will cover the relatively new requirement for Enterprise Risk Management (ERM), addressing risks to an agency's strategic objectives.
