

Emergency COVID-19 testing & vaccination centers

The Spanos Group Construction is a VA-certified Service-Disabled Veteran-owned Small Business [SDVOSB] California licensed GC that brings decades of engineering and construction experience to bear for our federal government customers. We pride ourselves on strict adherence to the CFR, Safety & Health best practices (including VHA directives) while delivering superior craftsmanship and attention to detail in the performance of our federal contracts.

the customer the COVID-19 pandemic brought unprecedented infrastructure and health challenges to the Veterans Affairs medical facilities across the nation.

faced with a vulnerable population of aging and compromised veterans with limited access to care, the VA needed to offer immediate COVID testing & vaccinations to its population.

the challenge the fast-moving global pandemic posed significant obstacles to the VA for a traditional construction approach to establishing comprehensive PCR testing and mRNA vaccinations to the millions of veterans they serve in the Greater San Francisco and Sacramento regions. Coupled with supply-chain issues, options were limited to achieve the VA's mission.

spanos solution spanos was selected via a Sole Source procurement and asked to fully demo, grade, install site utilities (including CAT6 infrastructure), 8000 sqft of concrete pads/sidewalks, stainless steel railing, commercial lighting and artificial turf for two (2) VA medical centers approx. 2 hours apart. The VA asked this to be completed within 90 days.

the outcome we were able to quickly marshal specialized crews from two (2) concurrent VA projects we were engaged on and utilized our nationwide network of suppliers to procure all necessary materials & equipment. We delivered both sites fully operational in under 29 days for immediate testing & vaccinations.

The Spanos Group and its team of specialized SMEs provided full site preparation, construction, and equipment installation for over 15,000 sq ft of future outdoors testing & vaccination medical care by the VA. Our unique ability to mobilize immediately and work around-the-clock provided the VA the ability to begin operations in a 1/3 of time expected.

VA Contract Number 36C26120C0026 Project Numbers 612-20-054 & 612-21-055 Sole Source Contract Value: \$512,966.45 U.S. Government Contracting Officer: Megan Barr, VISN 21
