

# Green Soak Cleaner 500

## **DESCRIPTION:**

Green Soak 500 is an environmentally safe alkaline, all metals cleaner for use in soak tank applications. Green Soak 500 will clean light oils and grease from machined parts and can be operated at high temperatures. This product contains no phosphates, butyl or nitrates and is specially formulated to meet tight safety and environmental requirements.

## **USE:**

Green Soak 500 can be safely used on a wide variety of metals. The preferred method of use is soak tanks for removal of light oils, but can be used in ultrasonic applications for removal of heavy oils from steel and stainless steel. Green Soak 500 can also be used in agitating tanks for removal of Light or Heavy oils from aluminum, zinc and brass

All methods listed are dependent upon the intensity of soils being removed and the aggressiveness of the equipment being used.

**CONCENTRATION:** 2.0 – 4.0 oz./gal. (15.2 – 60 ml/l)

**pH:** 11.0 to 11.5 of the concentrate
