

# Innova 3500

## VEHICLE DIAGNOSTIC & MOT EMISSIONS CENTRE

The latest concept in MOT Emissions Testing incorporating our Bluetooth CobraScan Vehicle Diagnostics, EOBD RPM and Engine Temperature Measurement, as standard.

Equipped with a compact, maintenance free Smoke Meter with Bluetooth connectivity the **Innova 3500** is one of the most advanced MOT Emissions Analysers designed to test modern vehicle engine technology of today.

*The Complete solution*

 **Bluetooth**  **wifi**

- DVSA MoT Class 4 & 7 Approved
- Wireless Internet Connection
- Remote IT Engineer Support
- DVSA Web Portal for MOT Reporting
- Smoke Meter and EOBD Bluetooth Connectivity
- CobraScan, EOBD and Fault Code Reader & Reset
- EOBD RPM and Engine Temperature Measurement
- Optional Range of MOT Approved Brake Testers

# VEHICLE DIAGNOSTIC & MOT EMISSIONS CENTRE

## Technology with the Future in Mind

The **Innova 3500** is controlled by a powerful Intel based PC system, combined with 'fully digital' infrared gas measuring technology, provides rapid analysis of a vehicles performance with pin point precision of exhaust emissions measurement. Combined with the ATL Class 4 or Class 7 roller brake option, high resolution LED screen, qwerty keyboard and A4 Laser printer, the **Innova 3500** is the most versatile and 'user friendly' analyser for MOT testing and fault diagnosis of today.

Supplied with Bluetooth **CobraScan** as standard, the digital EOBD adaptor is designed for use as a simple scantool device or as an RPM/Engine Temperature interface for MOT testing. The **CobraScan** simply plugs into the 16 pin EOBD socket to provide a live reading of Engine RPM and Temperature during the MOT test. In addition it can display and delete any standard DTC (Diagnostic Trouble Code) stored in the vehicles ECU memory. All values and codes are displayed on the **Innova 3500**.

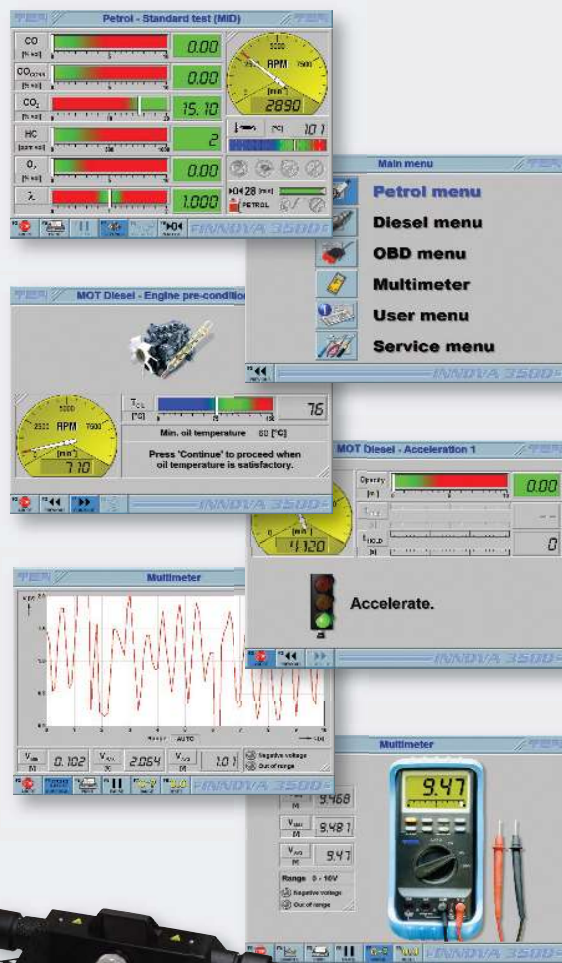

Wireless Internet Ready, the **Innova 3500** has password protected IT access by our Engineers to diagnose and check settings, via Internet, should any problem arise. It can also be used for your DVSA MOT reporting web portal.

## Accessory Options

**EDA 2000 Smoke Meter Cell** - This fully integrated and uniquely designed 'maintenance free' cell will provide the **Innova 3500** with a facility to test 'high volume' diesel exhaust emissions with minimum cleaning and maintenance.

**Brake Tester Options** - Approved for Class 4 & Class 7 MOT Testing.

**NOx** - Electrochemical NOx measurement kit.

## Specifications:

CO:	0 -10%	Atmospheric
HC:	0 -10,000 rpm	Pressure
CO <sub>2</sub> :	0 -20%	Compensation
O <sub>2</sub> :	0 -25%	
Lambda:	0.5 - 9.99	Automatic Zero
Oil Temp:	0 - 150°C	Calibration
RPM:	300 - 10,000	
Voltmeter:	0 - 100 Volt	Auto Ranging
Lambda Sensor:	0-2 / 0-10 Volt	
Power Input:	AC 220 - 240 Volt	
Frequency:	50 Hz	
Max. Power:	60 Watt
